

MTX Monitor Series combines form, function, quality, and price to deliver uncompromising performance that anyone can afford. Engineered to provide "timbre-matched" voicing regardless of enclosure size or configuration, each speaker will maintain a character of sound that is consistent with others in the series.

Monitor 600i Dual 6-1/2" 2-Way Tower Speaker

MTX's Monitor 600i is a superior sounding floor standing speaker that features two 6-1/2" polypropylene woofers with rubber surrounds combined with a 19 mm PEI dome tweeter in a D'Appolito array. This arrangement controls vertical dispersion, reducing the unwanted reflective sound from floors and ceilings for a more accurate soundstage. Plus, with the dual woofers in a common, vented enclosure, the Monitor 600i has lower extension, higher power handling, and higher efficiency than a single woofer speaker.

Specifications: • Woofer: Two 6-1/2" Poly • Tweeter: 19 mm PEI dome • Frequency response: 33 Hz-20 kHz • Power handling: 150W RMS • Sensitivity: 92 dB/2.83V 1m • Dimensions: 35-5/8" H x 9" W x 11-7/8" D • Sold individually.

Monitor 60i 6-1/2" 2-Way Bookshelf Pair

As one of four models in the completely redesigned Monitor series, the Monitor 60i is a power-packed bookshelf that is a great addition to any high performance system. Engineered from the ground up for accurate sound and exceptional imaging in real world situations, the Monitor 60i produces superior sound quality from a surprisingly small source. It features two 6-1/2" polypropylene woofers with rubber surrounds and a 19 mm PEI dome tweeter in a D'Appolito array, a unique design for a high output bookshelf speaker.

Specifications: • Woofer: Two 6-1/2" poly • Tweeter: 19 mm PEI dome • Frequency response: 42 Hz-20 kHz • Power handling: 100W RMS • Sensitivity: 92 dB 2.83V 1m • Dimensions: 17-5/8" H x 7-1/2" W x 11-7/8" D • Sold in pairs.

Monitor 6C Dual 6-1/2" Center Channel

The Monitor 6C is a top performing center channel speaker designed to complement any home theater. As one of four models in the completely redesigned Monitor series, the Monitor 6C is timbre matched to the rest of the family and easily integrated with a full high performance system. Two 6-1/2" woofers and a 19 mm PEI dome tweeter enhance this center channel's frequency response and sound clarity to provide exact sound reproduction and a realistic performance. The Monitor 6C features magnetic shielding of all drivers to allow the speaker to be placed in close proximity to video equipment. Plus, the Monitor 6C is also made with high quality materials like polypropylene woofer cones with rubber surround and its PEI dome tweeter for increased durability.

Specifications: • Woofers: Two 6-1/2" poly • Tweeter: 19 mm PEI dome • Frequency response 63 Hz-20 kHz • Power handling: 100W RMS • Sensitivity: 92 dB 2.83V/1m • Dimensions: 7-1/2" H x 17-5/8" W x 8" D • Sold individually.

SUB8 8" Powered Subwoofer

- Small and compact
- 8" woofer
- 120 watts of power
- Line-level and speaker-level inputs
- High efficiency amplifier
- Adjustable low-pass crossover frequency
- Adjustable gain control

A SUB8 powered subwoofer is the perfect addition to a small home theater room. It features 120 watts of power to accurately reproduce the low frequencies found in today's movies and music. An adjustable low-pass crossover and gain control allow perfect synergy with your existing home theater. The SUB8 has a small footprint that allows it to be placed out of the way, yet still deliver the punch that MTX subs are known for.

Specifications: •Woofer: 8" •Power handling: 120 watts max •Frequency response: 50-150 Hz •Box design: Ported •Inputs: RCA line level and speaker level •Dimensions: 10" W x 13-3/4" H x 13-3/16" D.
