Power Protection

Home Theater Power Centers

The perfect way to protect your expensive home theater equipment.

Reference PowerCenter™ HTS2600 MKII Clean Power™ Stage 2

- Monster Clean Power™ Stage 2 v2.0
- Protects coax lines from surge pulses
- Sequenced AC Power turn on and turn off for equipment protection and overload prevention
- 2960 joule rating
- Switched and unswitched outlets
- Tri-Mode circuitry
- Dimensions: 17" x 9-3/4" x 4". • \$400,000 connected equipment guarantee.
- Color-coded outlets, for error free handling

#185-160 \$349.95 EACH

Power HT UPS500 Battery Back Up with CoolDown™ Technology

- Battery back up
- 2 outlets
- CoolDown™ technology
- Safely keep fans running to cool down expensive bulbs

Monster Power has redesigned the common UPS to meet the demands of cutting edge technology. Not only does the Monster UPS500 provide battery back up so you can shut your equipment down safely, it is also smart. With a simple set up and IR emitter, the UPS500 will cool down expensive DLP, rear projection, and projection TVs bulbs during power outages. Monster's CoolDown™ technology will automatically send a signal to turn a DLP, rear projection, or projection TV into standby mode, and still provide power to the fan to cool the bulb. Now that's smart!

#185-175 \$199.95 EACH

Audio/Video PowerCenter™ AV200

- Compact, cordless construction plugs directly into wall outlet
- Monster Clean Power® stage 1 v2.0 filter
- \$50,000 Connected Equipment Warranty
- Audible surge alarm and visual indicator alerts
- Maximum 1110 joule surge protection
- Mfg. #AV200

#185-166 \$39.95 EACH

HT PowerCenter™ HTS800 Clean Power™

- Monster Clean Power™ Stage 1 filter to provide noise free power • 8 ft. Monster AC power cable with FlatProfile™ right angle plug • Color-coded, labeled outlets and matching cord labels • 8 outlets total, including 3 spaced for use with AC adapter transformers • Audible and visual indicators
- \$50,000 Connected Equipment Warranty • 1665 Joule rating provides a high level of surge absorption.

#185-164 \$99.95 EACH

PowerCenter™ HTS 1000 & 2000 MKII with Clean Power™ Stage 2

The Monster HTS 1000 and 2000 MKII feature extreme surge and spike protection. They both offer exclusive Tri-Mode Protection

circuitry which automatically disconnects all of your connected equipment if a big voltage spike hits. In addition, if your system takes a hit, an audible alarm will tell you the PowerCenter has protected your system from damage.

HTS 2000 MKII: • 12 AC outlets • Clean Power™ Stage 2 v2.0 circuit filters • \$250,000 Connected Equipment Warranty • Two digital meters to monitor voltage and amperage • 2775 joule rating provides a high level of surge protection • Tri-mode power protection • Audible alarm and auto disconnect • Dimensions: 20-3/4" x 5" x 2-3/4".

HTS 1000 MKII: • 8 AC outlets • Clean Power™ Stage 2 v2.0 circuit filters • \$250,000 Connected Equipment Warranty • 2700 joule rating provides a high level of surge protection • Tri-mode power protection • Audible alarm and auto disconnect • Dimensions: 15-3/4" x 5" x 2-1/2".

Part #	Mfg. #	Price Each
185-167	HTS 2000 MKII	\$229.95
185-169	HTS 1000 MKII	149.95

POWERBAR™ 1100 & 2100 with Clean Power Stage 2

The Home Theatre Powerbar™ 1100 and 2100 are equipped with fast-acting, high capacity Multiple SurgeGuard™ Circuitry which instantly detects any voltage surge or spike and immediately suppresses it before it can reach your components. They include 3 sets of coaxial connections and 1 pair of phone jacks, so you can hook up your satellite receiver, cable box or HDTV antenna for total home theatre system protection. Best of all, unlike other surge protectors, Monster's ultra low loss RF circuitry provides maximum protection with virtually no signal loss.

Powerbar™ 2100: • 6 Switched and 6 unswitched AC outlets • Clean Power™ Stage 2 v2.0 circuit filters • \$300,000 Connected Equipment Warranty • 2775 joule rating provides a high level of surge protection • Dual LED bars for voltage and current draw • Mounting bracket • Dimensions: 26-3/4" x 4" x 2-3/4".

Powerbar™ 1100: • 8 AC outlets • Remote turn-on • Clean Power™ Stage 2 v2.0 circuit filters • \$250,000 Connected Equipment Warranty • 2775 joule rating provides a high level of surge protection • Dual LED bars for voltage and current • Mounting bracket • Dimensions: 19-1/2" x 4" x 2-3/4".

Part #	Mfg. #	Price Each
185-171	Powerbar™ 2100	\$279.95
185-173	Powerbar™ 1100	199.95

In-Wall PowerCenter™ for Custom Installation Applications

- Dual Mode Plus power protection circuitry
- 1260 joule rating and audible alarm
- High current in-wall PowerCenter™ for 15 amp circuits
- 2 surge protected AC outlets
- Patented Monster Clean Power circuitry
- Diagnostic indicators for system status
- 50 amp peak current capacity

The Monster Power In-Wall PowerCenter provides protection, performance, and behind-the-screen hideaway convenience in a complete kit. The PowerCenter provides everything that you need to install power and video feeds for a wall-mounted flat screen TV or projector. Great for projector hook-ups too! White. Kit includes: 3 inserts: 2 inserts with 3 pair surge protected coax connectors, and 1 blank insert, cut-in box, PL200 IEC power cord, oversized faceplate, and a 24k grounding plate.

Specifications: • Maximum current rating: 15A/1,800W • Module protection modes: Line-Neutral (L-N), Line-Ground (L-G), Neutral-Ground (N-G) • Total energy dissipation: 1260 Joules • Clamping level: 330 Volts • Clamping response time: < 1 nanosecond • Dimensions: 3-1/2" total depth with back box.
