

Crimp Frame for Interchangeable Dies

This high quality, precision manufactured tool features a full cycle ratcheting mechanism to assure consistent terminations. The multi-purpose frame accepts interchangeable dies that produce crimps to industry standards. Ergonomic, pivoting design provides maximum crimping force with a minimum of handle pressure. Features precision high carbon steel construction, molded grip, and positive ratcheting action with emergency release. Dimensions: 8-3/4" x 2-1/2".
