Components

Mini Electrolytic Caps

High quality Xicon miniaturized capacitors utilize case sizes smaller than conventional general purpose caps while maintaining very high performance, low impedance characteristics, 20% tolerance, and an operating temperature of -40° to +85° C. Cap sizes larger than 8 mm diameter have pressure safety vents on rubber end seal.

Part #	Volts	Value uF	Style	Dimensions Dia. x H (mm)	Price (1-9)	Price (10-99)	Price (100-UP)
