

Dayton Audio Subwoofer Systems

- House rattling bass
- Exceptional value
- Five-year driver and one-year amplifier warranty
- 45 day money back guarantee
- Also available as "one hour kits"

If you don't agree your new Dayton Audio subwoofer produces more bass per dollar than any other, you can send it back for a refund of your purchase price!

Dayton Audio subwoofers give you the performance you demand, at a price that makes plain common sense. Each system features one of Dayton Audio's exclusive drivers, famous for excellent build quality and awesome low frequency performance. The driver is precisely mated to a high-power amplifier that exploits the woofer's massive potential and provides the best sound quality and highest output levels.

Dayton Titanic MKIII Series Subwoofer Systems

**TITANIC
MK III**

- House rattling bass
- Exceptional value
- Five-year driver and one-year amp warranty

The Titanic subwoofer systems were designed to give you the performance you demand at a common sense price. Each system features a Dayton Titanic subwoofer driver, a 3/4" MDF enclosure, special satin textured enamel finish, a 1" thick MDF grill, and black chrome isolation spikes. They come in three popular sizes: 10", 12" and a 15". With the Titanic subwoofer systems, you know exactly what you are getting—nothing but the best in cabinets, drivers, and amplifiers.

Fully assembled and ready to play. Kit versions on page 150.

10" T1003A Subwoofer System

The Dayton Audio 10" Titanic MKIII Subwoofer System is the latest evolution of a design that has received enthusiastic reviews from users and the press for over six years. With its 10" Titanic MKIII driver and SA240 amplifier, the T1003A delivers punchy, accurate bass—exceptional for music playback and great for small-to-medium sized home theater systems. Expect useful bass output down to 30 Hz, and output levels up to 105 dB. Features high and low level inputs, built-in variable crossover, auto on/off, and 240 watts RMS output. External dimensions: 14" W x 14" H x 14-1/4" D.

#300-761 \$749.99 LIST **\$549.80** EACH

12" T1203A Subwoofer System

Dayton Audio's T1203A 12" Titanic MKIII Subwoofer System combines power and musicality, and offers excellent all-around performance for serious home theaters or music listening setups. The modestly sized enclosure will fit into most rooms, yet the system's deep and powerful bass will dramatically enhance any application. A powerful HPSA500 500 watt amp and long-excursion Titanic MKIII driver allow this system to achieve in-room SPLs of 110 dB, with output down to 25 Hz. Amplifier features stereo line-level as well as LFE input, variable low-pass crossover, full parametric EQ, and auto on/off. External dimensions: 17" W x 17" H x 17-1/4" D.

#300-763 \$999.99 LIST **\$749.79** EACH

15" T1503A Subwoofer System

The 15" Titanic MKIII Subwoofer System is the Dayton Audio sub of choice for home theater buffs wanting to put their local movie theater's bass to shame. The T1503A's imposing 15" Titanic MKIII driver and HPSA1000 1,000-watt amplifier enable this system to move enough air to create a truly visceral experience—explosions are felt as well as heard. You will not find a subwoofer with deeper or more powerful bass than the T1503A for less than \$1,000.00, period. Amplifier features stereo line-level as well as LFE input, variable low-pass crossover, full parametric EQ, and auto on/off. External dimensions: 19-1/8" W x 19-1/8" H x 19-3/8" D.

#300-765 \$1,199.99 LIST **\$899.85** EACH

Dayton Audio RS1 200A Reference Series 12" Subwoofer System

Explore the fundamentals of low-frequency reproduction. **REFERENCE**

S E R I E S

- Plug-and-play high quality subwoofer system for music or home theater
- Dayton Reference Series legendary ultra-low-distortion subwoofer
- Adjustable volume, crossover frequency, bandwidth and more
- Clean, detailed bass down to 25 Hz
- Performance that rivals popular systems costing much, much more

Dayton Audio's Reference Series loudspeakers have gained an enormous following and respect among speaker builders and audiophiles. After listening to an RS1200A subwoofer system, it's easy to hear why! The system is built around the popular and powerful 12" RSS315HF-4 subwoofer, combined with the Dayton HPSA500 subwoofer amplifier—one of the most technologically advanced sub amps available.

Even in the most demanding application, this designed and engineered in the U.S.A. system delivers high-excursion sub-bass uncolored by extraneous resonances or mechanical noise. Dayton Audio's low-distortion Reference Series driver produces deep, musical low frequency output with maximum fidelity, even when called upon to recreate the explosive dynamics demanded by realistic home theater playback.

Specifications: • 12" subwoofer • 500 watt amplifier • Frequency range: 25-180 Hz • Adjustable 40-180 Hz low-pass filter • LFE and line-level inputs • Auto-on • Dimensions: 17" H x 17" W x 17-1/4" D.

#300-743 \$949.99 LIST **\$699.93** EACH

Dayton Audio HT Series Subwoofers

- House shaking power
- Front firing long throw woofer
- Perfect for home theater or listening rooms
- Unobtrusive "Black Ash" finish

The Dayton Audio powered subs employ a front firing, dual ported, bass reflex design that produces deep clean bass. The amplifier features gold plated high and low level inputs/outputs, a phase switch, independent volume control, an auto on/off switch (activated by an input signal) and a variable 12 dB electronic low pass filter. The subwoofer also features a high pass filter output for satellite speakers.

SUB-80: • 8" long-throw woofer • 80 watt amp • Low pass filter: 40-180 Hz • 12 dB high pass filter @ 275 Hz • Frequency response: 35-180 Hz • Exterior dimensions: 11" W x 15" H x 14" D.

SUB-100: • 10" long-throw woofer • 125 watt amp • Low pass filter: 40-180 Hz • 12 dB high pass filter @ 275 Hz • Frequency response: 30-180 Hz • Exterior dimensions: 14-3/4" W x 16-3/4" H x 17-1/4" D.

SUB-120: • 12" long-throw woofer • 150 watt amp • Low pass filter: 40-180 Hz • 12 dB high pass filter @ 275 Hz • Frequency response: 25-180 Hz • Exterior dimensions: 17" W x 15" H x 17-1/2" D.
