

Pyle Pro PDW Series Indoor/Outdoor Speaker Pairs

- Rugged plastic enclosures
- Long-throw woofers with oversized magnets provide great bass
- 1/2" polyamide dome tweeters for sparkling HF response
- High sensitivity—more sound per watt!
- Spring loaded u-mount brackets included
- Available in 8 ohm and 70V transformer versions
- Transformer models include indoor/outdoor EQ switch

#310-210

Pyle Pro indoor/outdoor speakers deliver solid sound to any environment. Weatherproof plastic enclosures, convenient spring-loaded mounting brackets, and durable driver components make these the speakers of choice for home interiors, decks, pools, or patios.

All models feature a 1/2" polyamide dome tweeter. Available in 3-1/2", 5-1/4", and 6-1/2" woofer versions, with and without 70V transformers. Non-transformer models have an 8 ohm nominal impedance. Sold in pairs.

TIC Architectural Series Patio Speakers

The Architectural series patio speakers from TIC can be installed as an 8 ohm speaker or in a 70V system. A switch on the back allows for easy adjustment of a 70V line application and wattage can be selected from 2.5, 5, 10, 15, and 20, or simply set the switch to 8 ohms. The cones are polypropylene with non-woven edge surrounds and high density blown neoprene mounting bumpers. Teflon coated baskets and interior housings coupled with high impact UV resistant ABS complete the assembly. These waterproof speakers will resist infestation, mildew, and fungus for many years of exterior performance.

ASP 60: • 5-1/4" woofer • 1" tweeter • Frequency response: 130-20,000 Hz • 6 ohm impedance • 60 watts maximum power handling capability • SPL: 89 dB • Dimensions: 9-3/4" H x 7-1/4" W x 6-1/2" D • 70V switch settings: 2.5W, 5W, 10W, 15W, 20W, or 8 ohm • Sold in pairs.
