ATC Certified HDMI v1.3a Cables

- ATC certified
- Supports up to a 1080p resolution
- Passes 8-channel digital audio

Don't settle for a second-rate HDMI cable that hasn't undergone ATC certification—chances are they won't even pass a high-definition signal. These HDMI cables are guaranteed to pass high definition content (up to 1080p), and are at a price that's affordable.

Cables & Adapters

Dayton Audio cables have the value and performance you demand, and the quality of construction that you expect for your dollar.

Dayton Audio High-Speed Flat HDMI Cables

- Supports resolutions up to 1600p, refresh rates up to 120 Hz, and 48-bit deep color
- Flat cable construction reduces cable footprint while reducing cross-talk
- ATC certified HDMI v1.3b category 2
- HDCP compliant

Dayton Audio's flat HDMI cables spread out the individual cable pairs within the cables, reducing the effects of inter-pair cross-talk and increasing performance.
