Wired Home WH-DVIR100 Digital Volume Control

- Digital volume trimming with blue LED display
- 100W RMS per channel power handling
- Stereo impedance matching for up to 16 pairs of speakers
- Built-in IR target and backlighting
- Remote control included

Wired Home's innovative WH-DVIR100 digital volume control makes distributed audio management affordable, while providing impedance protection for up to 16 pairs of speakers. Volume may be controlled by the included IR remote control or by the backlit push-button keypad. A cool blue LED display presents the exact volume setting, no need to guess. System component control is achieved through the integrated IR target that is compatible with 38 kHz and 56 kHz IR systems (IR hub, power supply, and emitter sold separately). The OFF/MUTE button quickly silences the local audio zone for when the phone or doorbell rings, and the last volume setting is remembered.

Installation could not be any easier. Removable phoenix-type speaker input and output connectors, for pre-wiring, accommodate up to 14 AWG wire. Power and IR signal connection is accomplished through the RJ45 jack—wiring standard T-568B—which connects to the Wired Home WH-IRH IR Hub. Tired of losing impedance setting jumpers? A single switch allows you to set and forget the protection. Single-gang packaging and white Decora® styling blends in nicely with any room.

Wired Home WH-VIR IR Volume Controls

- 100 watt/channel impedance protection
- Built-in IR target and status indicator
- Decora styling

Take a full-featured, impedance matching volume control, add an IR target with status indication, and you have the Wired Home WH-VIR100. Amplifier protection for up to sixteen pairs of 8 ohm speakers is protected through high-quality autoformers. Removable connectors accept up to 14 AWG speaker wire for simple installation. Designed to be used with Wired Home IR systems, but can be used with almost any company's IR components. Bright white Decora® styling is compatible with any décor. Fits into a single-gang low voltage box.

Specifications: • Power handling: 2 x 100 watts RMS • Input/output wire terminal size: Up to 14 AWG • Impedance protection: Up to 16 pairs of 8 ohm speakers • Dimensions: 4-1/8" H x 1-5/8" W x 3" D (in wall depth 2-3/4") • Sold individually.

Wired Home WH-IR4000 Decora Style IR Target White

- Single-gang Decora plate design
- Disappears into any décor
- Control range of up to 80 ft.

This single-gang Decora style IR target disappears on a wall due to its light-switch appearance.

#182-870 \$44.99 LIST **\$34.51** (1-3) **\$32.87** (4-UP)

Wired Home WH-IR3500 IR Tube Target

- Hide an IR target anywhere
- Fits into a 1/2" hole
- Compatible with most major IR brands

This IR tube style target is smaller in diameter than a penny and can hide anywhere. Brass construction ensures durability.

#182-868 \$54.99 LIST **\$42.13** (1-3) **\$40.12** (4-UP)

Wired Home WH-IRH IR Hub

- Provides output to 4 emitters
- Supports up to 15 targets
- Confirmation LED built-in

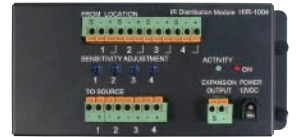

The WH-IRH is the heart of an IR system. A single hub is capable of supporting up to 15 targets and four emitters. Built into the WH-IRH is an LED for confirmation of signal to reduce troubleshooting time. Also built-in is a status power port which is connected to a 12V trigger or a 12 VDC power supply connected to the switched electrical outlet of an AV device. Power supply sold separately.

#182-860 \$37.99 LIST **\$28.99** (1-3) **\$27.61** (4-UP)
#182-862 (Power supply) \$8.99 LIST **\$6.33** (1-3) **\$6.03** (4-UP)

Wired Home 4-Port IR Distribution Hub

- Provides 4 location inputs and 4 source outputs
- Individual sensitivity adjustment control
- Expansion output port to allow endless IR ports
- Spring terminals accept up to 22 ga. solid wire

#182-832 \$123.99 LIST **\$94.72** (1-3) **\$90.21** (4-UP)

Wired Home WH-IRJ-KJ IR/MP3 Keystone Jack

This Wired Home keystone jack is an IR target port, a local MP3 input, or a 3.5 mm auxiliary audio jack that fits into any standard Keystone wall plate. Standard Cat 5/5e wire can be used for transmitting the IR or audio signals. Accepts up to 22 ga. solid wire. **Not compatible with the Leviton QuickPort system.*

#182-837 \$5.99 LIST **\$4.56** (1-11) **\$4.35** (12-UP)

Wired Home WH-IREKJ IR Emitter Keystone Jack

- IR emitter port that fits into any standard Keystone wall plate
- Discrete placement of an IR mouse emitter
- Spring terminals and a mini jack for simple installation
- Uses standard Cat 5/5e cable for transmitting the IR signals
- Accepts up to 22 ga. solid wire

#182-836 \$4.99 LIST **\$3.51** (1-11) **\$3.34** (12-UP)

Wired Home IR Mouse Single and Dual Emitters

- Visible confirmation LED
- Mini plug for simple installation
- Includes a 10 ft. cord with a 3.5 mm plug

WH-1IRME: • Power: 120 mW • Invert voltage: 5V • Continual current: 80 mA • Wavelength: 940 nm • Transmission distance: up to 12 ft.

WH-2IRME: • Power: 240 mW • Invert voltage: 5V • Continual current: 160 mA • Wavelength: 940 nm • Transmission distance: up to 12 ft.

Wired Home WHHCPS High Current Power Supply

- Self-regulating, switching design provides a stable 12 VDC output
- Wide range voltage input 100-240 VAC
- High current output overcomes resistance on long wire runs

Specifications: • Power input: 100-240 VAC, 47-63 Hz • Power output: 12 VDC, 1.2A • Plug type: 2.1 mm ID x 5.5 mm OD • Polarity: Center positive • 6 ft. power cord • Dimensions: 2-5/8" H x 1-5/8" W x 2-1/8" D.

#182-886 \$37.99 LIST **\$28.74** (1-3) **\$27.37** (4-UP)
