

Home Audio / Video

Wall Plates

Dayton Audio Home Theater Wall Plates

- 24 karat gold-plated binding posts
- 2 RCA type couplers for subwoofer and auxiliary audio channel
- RCA and HDMI connections are coupler type for use with pre-terminated cables
- Connections are labeled for ease of identification
- Decora style inserts with matching cover plate

Audio connections for five or seven speakers (binding posts accept up to 12 AWG wire) and two line-level devices (one subwoofer and one AUX or digital audio connection). Plus, video connection for HDMI video provides a complete all-in-one wall plate solution. The HDMI connection features a unique flexible extension to reduce cable stress and fatigue within a congested electrical box. The design utilizes Decora®-style inserts and includes a matching cover plate.

300-619	WPI71HD	7.1 with HDMI	54.99	42.00	40.00

Home Theater Wall Plates by Dayton Audio

- Hex locks prevent spinning
- Gold plated
- Isolated

Put the finishing touch on home theater and audio/video installations with these high quality architectural audio wall plates. Unique two piece design utilizes our elegant installer-friendly most common Decora® inserts and wall plates. All of our connectors incorporate a hex lock indent to eliminate connector "spin" and are gold plated for maximum conductivity and long life. All jacks are color coded for polarity identification.

Part #	Description	List Price	Price (1-9)	Price (10-UP)

Dayton Audio HDMI Wall Plates

- Decora® styling
- In-wall strain relief cable
- Single-gang design
- Passes 1080p, HDMI v1.3 compliant

HDMI wall plates from Dayton Audio maintain HDMI signal integrity and allow you to conceal your HDMI cables in-wall. A mini, in-wall strain relief cable reduces cable tension by taking the weight of the cable off the connector and increases connection reliability. Modern Decora® styling matches other wall plates used throughout the home for seamless integration into your décor.
