Security CCTV

NEW

Use CCTV cameras from Wired Home in a vast array of applications limited only by your imagination.

- 1/3" color CCDs produce 420 lines of video
- 3.7 mm lens provides a 65° field-of-view
- Automatic white balance and backlight compensation
- Built-in electronic high-speed shutter
- 1-lux minimum illumination
- Composite video (RCA) output
- Power: 12 VDC, 160 mA

Color PC Board Cameras

- PC board measures only 1-1/4" x 1-1/4"
- Ideal for use in projects due to light weight
- Mounting holes make attachment easy

PC Board cameras are incredibly versatile and the applications are limited only by your imagination. Due to their small size and light weight, PC board cameras are perfect for model builders who want the ultimate point-of-view images. Mount a PC board camera into a common household product and build a covert monitoring system that will make you feel safer in your home.

Part #	Lens Type	List Price	Price Each	Price (2-UP)
334-100	Flat	\$90.99	\$39.50	\$34.50
334-102	Conical pin-hole	90.99	39.50	34.50

Color Miniature Cameras

- Camera measures only 1-7/16" x 1-7/16"
- Durable aluminum housing provides protection
- Mounting bracket for easy placement

Miniature cameras are a great solution for surveillance applications where a traditional camera will not fit. Place the cameras among other items in your home or office for a covert monitoring system. Mount the camera inside a window and keep an eye on children while they play outside. In the nursery, these cameras allow new parents to relax knowing they can see their sleeping child. In a commercial environment, these cameras are great for inspection on production equipment.

Part #	Lens Type	List Price	Price Each	Price (2-UP)
334-104	Flat	\$96.99	\$49.50	\$44.50
334-106	Conical pin-hole	96.99	49.50	44.50

Color Bullet Camera

- Small size for inconspicuous placement
- Durable aluminum housing provides protection
- Mounting bracket for easy installation

Bullet cameras are great replacements for larger traditional cameras. Ideal for outdoor installations, the flat lens camera has an integrated sunshade that protects the lens from direct sunlight. With unlimited concealment potential, the conical pinhole lens is ideal for a covert surveillance system.

Part #	Lens Type	List Price	Price Each	Price (2-UP)
334-108	Flat	\$116.99	\$59.50	\$54.50
334-110	Conical pinhole	116.99	59.50	54.50

Color Sport Sunglasses Camera

- 640 x 480 resolution
- 2GB flash memory
- Built-in rechargeable batteries

Bring "extreme" home with you! These stylish Color Sport Sunglasses feature an integrated DVR that saves 640 x 480 resolution video to its built in memory or to your micro-SD card, and the built-in microphone records all the sounds around you. Retrieve your videos by plugging the sunglasses into your PC using USB 2.0 through the built-in micro-USB connection.

Specifications: • Image device: 1.3 mega-pixel CMOS • Resolution: 640 x 480 pixels • Memory: 2GB flash memory • External memory: supports micro-SD memory cards • Operating system: Windows XP or higher • Video format: AVI • Power: built-in rechargeable batteries • Includes: sunglasses, USB cable, charger, and case.

#334-124 \$199.99 LIST **\$99.00** EACH

Color Sport Helmet Camera With Integrated DVR 640x480

- 640 x 480 resolution
- Built-in microphone
- Built-in laser diode viewfinder
- Supports up to 2GB SD card

The Color Sport Camera features an integrated DVR that saves 640 x 480 resolution video to your SD card. Attach the camera with the included mounting band to your helmet and record POV shots of skydiving, motocross, or any sport you enjoy. Hear the screams and cheers from your spectators through the built-in microphone. Easy one-button operation from power-on to recording, this camera definitely won't slow you down. Power: Two AAA batteries, not included.

#334-122 \$89.99 LIST **\$59.00** EACH

Color Dome Camera with IR and Vari-Focal Lens

- 1/3" Color CCD
- Produces 420 lines of video
- See in the dark up to 100 feet
- Sealed for use in contact with direct rain and high humidity
- Automatic white balance and backlight compensation
- Video output: 1V p-p at 75 ohms
- Power: 12 VDC, 400 mA

Wired Home CCTV cameras feature the latest technology and are priced right for any do-it-yourself budget. 1/3" CCD image device produces 420 lines of color video. Virtually see in the dark up to 100 feet with the built-in IR illumination producing an image with a minimum illumination of 0 Lux. External adjustment of the camera's focal length (3.5 mm to 9.0 mm) and focus combined with the 360° x 90° pan and tilt allow you to set the camera quickly for the most suitable viewing angle.

We recommend a reliable power adapter like Parts Express part #334-116 (12 VDC, 1000 mA) or equivalent.

#334-112 \$161.99 LIST **\$119.50** EACH **\$99.50** (2-UP)

12 VDC 1000 mA Switching Power Supply

- 12 VDC, 1000 mA
- 5.5 mm x 2.1 mm DC plug
- High efficiency

This power supply is ideal for use with Wired Home 12 VDC CCTV cameras requiring current capacity up to 1000 mA. The switch mode power supply is much more efficient than transformer based power supplies providing higher efficiency from a smaller and lighter form factor. The high current capacity provides a steady voltage that compensates for voltage drop across power lines. 5.5 mm x 2.1 mm DC jack is commonly found on DC powered CCTV cameras.
