Thomas & Betts LRC[®] offers an extensive line of high quality F connector products for today's growing CATV technology. The connectors are designed for outdoor and indoor applications and manufactured using the highest quality materials available.

About Weatherproof "F" Connectors . . .

LRC's patented Snap-N-Seal[™] environmentally sealed F system is ideal for protecting connections against harsh environments. This is accomplished through a unique 360° compression process that also provides the signal leakage protection required for today's communications and satellite systems.

3-In-1 Compression Tool Kit

This is an exceptional value! We took our most popular compression connectors and combined them in a kit with the 3-in-1 compression tool and a rotary coaxial stripper. The compression tool comes with adapters that fit into the compression chamber allowing it to make a tight compressed seal for all three types of connectors. Adapters are stored in an ergonomic handle for fast changeover when doing multiple varieties of video connections.

The kit includes: (1) 360-046 Compression Tool • (1) 360-016 Rotary Stripper • (16) 092-491 RG-6 F • (8) 092-492 RG-6 F Quad • (12) 092-497 RG-6 RCA • (6) 092-498 RG-6 RCA Quad • (10) 092-493 RG-59 BNC

Save over 20% when you purchase the kit, and get a protective case free!

LRC Snap-N-Seal[™] RCA Connectors

This connector was designed with the Snap-N-Seal[™] technology and will interface with all standard RCA female jacks. The connector body and precision integral contact provide maximum conductivity and reliability. Color coded sleeves based on industry standards give the installer maximum flexibility for creating audio and video cables in home theater and custom installs.
