2.5 mm 4C Right Angle Plug with 12" Cable

This 2.5 mm right angle plug with a 12" four conductor cable is great for projects, such as building your own cell phone accessories. A right angle male plug allows for close proximity placement without worrying about the damage associated with large cumbersome adapters. The twisted pair conductors are pre-stripped for quick connection, while the tinned, overall shield acts as the fourth conductor for ground.
