

Tech Spray Chemicals

Tech Spray is at the forefront of many technological advances, and they strive to lead the industry in developing effective and safe new products. Environmental concern drives Tech Spray to find new solutions to creating environmentally sound products, while maintaining high quality formulations that are second to none.

Ecoline Series

- Available to consumers
- Safe on plastics
- Great quality at low cost

Cleaner/Degreaser

This cleaner/degreaser is a synergistic blend of alcohols designed for cleaning electronic and electrical equipment, machinery, and metal parts. Its rapid evaporation and complete compatibility with plastics make it the perfect choice for general cleaning. Flammable (until solvent dissolves.) 10 oz. aerosol can. Mfg. #1620-10S.

#341-322 **\$14.54** (1-11) **\$13.22** (12-UP)

Flux Remover

The Flux Remover has excellent defluxing power and dissolves type R, RMA, SA, and most no-clean fluxes. Can also be used as an all purpose cleaner for removal of light oils and similar contaminants. Non-corrosive and safe on plastics. Flammable (until solvent dissolves.) 10 oz. aerosol can. Mfg. #1621-10S.

#341-324 **\$14.82** (1-11) **\$13.47** (12-UP)

Contact Cleaner

This contact cleaner is ideal for cleaning the electrical contacts of switches, relays, contact pads, and other electrical connections. Mild, non-corrosive cleaner is safe on most plastics and will not harm metals. Flammable (until solvent dissolves.) 10 oz. aerosol can. Mfg. #1622-10S.

#341-326 **\$14.00** (1-11) **\$12.77** (12-UP)

Dusters

This environmentally safe dust remover is moisture free and removes particles without the use of harmful solvents. Non-flammable formula. 100% HFCs. Mfg. #1671-10S, #1671-15S.

#341-378 (10 oz.) **\$9.98** (1-11) **\$9.25** (12-UP)

#341-379 (15 oz.) **\$16.44** (1-11) **\$14.94** (12-UP)

Circuit Chiller

Rapidly evaporating liquid that chills to -62°F. This product will not deplete the ozone layer. Contains 100% HFCs. 10 oz. aerosol can. Mfg. #1672-10S.

#341-380 **\$12.07** (1-11) **\$11.06** (12-UP)

* = In accordance with EPA regulations, chemicals containing CFCs/HCFCs can be sold only to dealers and distributors who have a valid FEIN (Federal Employer Identification Number), state sales tax exemption number or local business license number. Please have the verifiable number available when placing your order.

ECG Strawkeepers

- Attaches to a variety of containers
- Holds straw under extreme conditions
- Durable material will outlast can contents

Have you ever misplaced that little straw that comes with aerosol cans? Of course, you have. Use a Strawkeeper and you will never lose straws again—it connects to the can and holds your straws securely.

#341-500 **50¢** (1-11) **45¢** (12-UP)

ECG RX100 Anti-Static Circuit Refrigerant

- Freezes small areas to -62°F (-52°C)
- Minimal static voltage generation
- Cold tests of prototype circuits
- Rapid detection of defective parts
- Protects parts while soldering
- Locates hairline cracks in PCBs
- Quickly removes adhesives

RX100 is an inert, high-purity freezing agent that cools instantly. It protects static sensitive devices from potential damage caused by electrostatic charges. Safe for use on most rubber, polymers, and metals. It vaporizes completely, is non-flammable and non-conductive, and does not leave a residual film. Will cool small areas to -62°F (-52°C). CFC and HCFC free. 10 oz. can.

#341-502 **\$10.73** (1-11) **\$9.83** (12-UP)

ECG RX201 Electronics Degreaser and Wash

- Universal cleaner
- Non-aggressive
- Quickly removes grease, oils, dirt, oxidation, ionics, and other contaminants
- Safe on most plastics

The RX201 is a blend of advanced solvents that quickly and safely remove dirt, grease, particulates, and other contaminants from electronic/electrical parts and equipment. Safe on most plastics. 16 oz. can.

#341-504 **\$23.60** (1-11) **\$21.63** (12-UP)

ECG RX401 Electronics Contact Cleaner, Degreaser & Wash

- Quickly removes grease, oils, dust, and other contaminants
- Fast acting
- Reduces arcing and noise
- Evaporates quickly
- Improved formulation

ECG's RX401 is a blend of advanced solvents, forming a fast acting cleaner, for use on electrical/electronic contacts and controls. It reduces arcing and noise caused by oxidation and other contaminants, which prevent good electrical continuity. Evaporates quickly and leaves no residue. Safe on most plastics. 16 oz. aerosol can.

#341-506 **\$23.60** (1-11) **\$21.63** (12-UP)

ECG RX100 Jet Air Cleaner

- Removes lint and dust
- Non-abrasive
- CFC and HCFC free

The RX100 is a general purpose, high pressure, compressed gas which removes dust, lint, oxide particles, and other dry contaminants from hard-to-reach places. It is perfect for cleaning computers, office equipment, and electronic equipment. Completely dry, inert, non-flammable, and non-abrasive. Contains no CFC's or HCFC's. 10 oz. aerosol can.

#341-514 **\$10.73** (1-11) **\$9.83** (12-UP)
