ECG Professional Soldering Irons

These professional soldering irons feature a replaceable tip, ergonomically designed cool grip rubber handle, and a nickel-iron plated long life copper tip. The 25 watt iron provides an operating tip temperature of 464°F and the 60 watt iron provides an operating tip temperature of 860°F. Both have fast heat time and quick heat recovery. 120 VAC. Replacement tips #372-226 (25W) and #372-228 (60W).

Features: • 10" length • 5 ft. power cord • UL Listed • Includes stand • Limited one-year warranty.

#372-200 (25 Watt)	\$11.63 (1-3)	\$10.69 (4-UP)
#372-204 (60 Watt)	\$17.34 (1-3)	\$15.97 (4-UP)

ECG Professional 45 Watt Desoldering Iron

A must for any shop, lab, or hobbyist. Features an ergonomically designed cool grip rubber handle and replaceable long life tip. Provides an operating tip temperature of 788°F for quick removal of solder by way of its integrated pump. 120 VAC. Replacement tip #372-230.

Features: • 5 ft. power cord • UL Listed • Limited one-year warranty.

#372-202	\$19.91 (1-3)	\$18.33 (4-UP)

ECG 4-in-1 70 Watt Butane Soldering Kit

The ECG 4-in-1 Kit provides the ultimate in soldering portability. With its four interchangeable tips it can be used as an iron, hot knife, torch, or a heat blower. It features a refillable fuel cell that provides up to 120 minutes of work time. Flame operates between 410°F to 2500°F. Kit includes J-700 soldering tool, protective cap with igniter, 1 mm soldering tip, hot knife tip, hot blower tip, a torch tip, wiping sponge, safety stand, solder, and plastic storage case. Replacement tip #372-220 and #372-222.

#372-216	\$89.95 LIST	\$67.79 (1-3)	\$62.37 (4-UP)

ECG Flameless Heat Gun

Compact size and portability make this portable butane heat gun a must for any A/V or car audio installer. It produces temperatures adjustable up to 1400°F and includes a removable deflector that helps concentrate heat for faster results and protects surrounding objects. Refillable fuel tank offers operating times up to 120 minutes. Replacement heat blower and deflector tip #372-224.

Features: • Automatic piezo ignition • Includes stand and spare orifice • Cordless portability • One year limited warranty.

#372-218	\$79.95 LIST	\$63.53 (1-3)	\$58.44 (4-UP)

Velleman Lab 1U

Velleman has combined three of the most important pieces of electronic hobbyist lab equipment and created the space saving Lab 1U.

Multimeter: • Five DC voltage ranges: 200mV to 600V • Two AC voltage settings: 200V and 600V • Five DC current ranges: 200µA to 10A • Resistance testing: 0 to 2M ohms.

Regulated Power Supply: • Six selectable output DC voltages: 3, 4.5, 6, 7.5, 9, 12 • Amps out: 1.5A (2A peak) • LED overload indication • Low ripple design • LED power indication.

Soldering Station: • 24V power supply • Ceramic 48W heating element with temperature sensor • Adjustable temperature settings: 302-842°F.

#370-400	\$189.99 LIST	\$149.50 EACH

No toolbox is complete without a soldering iron or torch from ECG.

ECG Versa-Torch™

No workshop, garage, or kitchen should be without this hand-held professional butane torch. Perfect for brazing, soldering and plumbing. It offers approximately 220 minutes of continual use per fill-up, thanks in part to its refillable butane gas tank. Provides adjustment for fuel and air mix, offering temperatures up to 2,500°F (1300°C). It has a sturdy lightweight brass body with a protective rubber grip. Kill/off switch and removable base are designed for added safety.

Features: • Convenient and lightweight • Piezo electric ignition • Adjustable air flow and gas flow control valves • Limited lifetime warranty.

#372-208	\$61.93 (1-3)	\$56.97 (4-UP)
----------------	---------------	----------------

ECG Micro Jet Butane Torch

The ECG-Micro Jet is a professional mini butane torch ideal for contractors, craftsmen, and hobbyists. Its size and portability make this unit a must for toolboxes, camping gear, and first aid kits. Its flame produces instant temperatures up to 2,500°F (1300°C). Refillable cartridge offers twenty minutes of continuous use. Child safety lock prevents accidental turn on. Unit comes with one refillable butane fuel cartridge. Replacement fuel cartridge #372-234. Limited one year warranty.

#372-210	\$24.95 LIST	\$19.92 (1-3)	\$18.16 (4-UP)
----------------	--------------	---------------	----------------

ECG Butane Soldering Iron and Torch

The smaller brother of the 70 watt butane soldering iron #372-216. Its compact design is perfect for the smaller workshop or the technician who is always on-the-go. It offers 30 minutes of operating time with an instant torch temperature of 2,500° F. Has refillable butane fuel tank and adjustable flame control. Reaches soldering temperatures between 410°F and 750°F in 20 seconds. Includes a 1 mm soldering tip and torch attachment. Replacement tips #372-220 and #372-222.

Features: • Convenient, compact and lightweight • Integrated igniter in the cap • Integrated safety stand • Refillable fuel tank with see-through window • Interchangeable tips.

#372-214	\$26.99 LIST	\$25.93 (1-3)	\$23.85 (4-UP)

Stahl Tools Variable Temperature Soldering Station

- On/off switch with "power-on" indicator light
- Variable heat setting
- Cushioned rubber grip
- Replaceable heating element
- Quality performance at a discount price

Stahl Tools variable temperature soldering station is designed to exceed the expectations of veteran technicians—at a price that's appealing to the electronics hobbyist. Many different soldering tasks are accomplished using the adjustable 5 to 40 watt temperature control. The lightweight pencil iron features a rubber grip that reduces fatigue

and a Bakelite ringed iron holder keeps it at the ready. A field replaceable, precision ground, iron-plated solid copper tip provides maximum heat transfer—minimizing cold solder joints. Includes tip cleaning sponge.

#374-100 (Soldering station)	\$19.99 LIST	\$14.98 (1-4)	\$14.24 (5-UP)
#374-102 (4-piece tip kit)	\$6.99 LIST	\$4.95 (1-4)	\$4.74 (5-UP)
