## Test Equipment

### DMM and LCR Meter

In addition to functions found in regular DMMs, this meter can also measure inductance in 5 ranges (4 mH, 40 mH, 400 mH, 4 H, 40 H), capacitance in 5 ranges (4 nF, 40 nF, 400 nF, 4 uF, 400 uF), frequency in 4 ranges (4 kHz, 40 kHz, 400 kHz, 4 MHz), TTL logic test, diode test and transistor hFE test. 5 AC/DC ranges up to 1,000V (AC750V), 3 AC/DC current ranges up to 10A and 7 resistance ranges up to 4000 M ohms. Includes test leads, battery, spare fuse, and manual.

#390-513 . . . . . \$149.99 LIST **\$94.65** EACH

### Audio Generator

Square wave and sine wave generator useful for a variety of audio applications. Generates 10 Hz to 1 MHz in 5 ranges. Output voltage: 8V RMS sinewave, 10V p-p squarewave.

± 3% dial accuracy. Output impedance: 600 ohms. Synchronization: ± 3% of oscillation frequency per VRMS. Includes test lead, AC power cord, and manual. Dimensions: 6" H x 10" W x 5" D.

#390-620 . . . . . **\$149.90** EACH

### RF Signal Generator

Generates 100 kHz to 150 MHz in 6 bands and up to 450 MHz on third harmonics.

± 3% dial accuracy. RF output: 100 millivolts RMS to 35 MHz. Audio output: 1 kHz at 1V RMS. Modulation: internal 1 kHz, external 50 Hz to 20 kHz. External crystal socket for precision fixed frequency output (crystal not included.) Includes RF cable, AC power cord, and manual. Dimensions: 6" H x 10" W x 5" D.

#390-600 . . . . . **\$146.25** EACH

### Test Leads

36" color-coded test leads with finger guards reduce the possibility of accidental shock when working on "live" circuits.

#390-120 . . . . . **\$2.95** (1-9) **\$2.50** (10-UP)

### Plastic Caliper

Provides quick and precise measurement of various objects up to 6".

#360-560 . . . . . **\$2.50** (1-9) **\$2.25** (10-UP)

### Capacitance Meter

Handheld capacitance meter features 3-1/2 digit display, 20 pF to 20,000 uF in 9 ranges, zero adjustment of ± 20 pF to compensate for parasitic capacitance in test leads, and is fully protected from a charged capacitor. Ideal for checking unmarked capacitors. Includes test leads, 9V battery, spare fuse, and manual.

#390-735 . . . . . \$99.99 LIST **\$44.65** EACH

### DMM w/Adjustable Display

This DMM features a unique moveable LCD display that can be adjusted up to a 70° angle. Functions include: • 5 DC voltage ranges up to 1000V • 5 AC voltage ranges up to 700V • 4 AC/DC current ranges up to 20A • 7 resistance ranges up to 200M • 5 capacitance ranges from 2 nF to 20 uF • Continuity checker • Diode and transistor tester • Data hold • Annunciators on all ranges • Includes test leads, operator's manual, 9V battery, and soft holster

#390-545 . . . . . \$49.99 LIST **\$29.75** EACH

### LC Meter

This handheld digital LC meter gives a direct reading of inductance and capacitance on a 3-1/2 digit display.

Features: • Large LCD display • 6 capacitance ranges from 2 nF to 200 uF • 4 inductance ranges 2 mH to 2 H • Automatic zero adjustment • Includes soft holster, 9V battery, operating manual, and test leads

#390-570 . . . . . \$105.99 LIST **\$44.50** EACH

### Digital Pocket Scale

- Dayton WT3 companion for calculating VAS using the Delta Mass method
- Accurate to nine ten-thousandths of a gram
- Measures gram, ounce, pennyweight, and carat units
- Great for lab work, measuring prescriptions, and weighing postage
- Power saving auto-off feature
- Batteries included
- 500 gram capacity

#390-768 . . . . . \$29.99 LIST **\$19.87** EACH

### Test Leads

34" color coded test leads feature a banana plug to an insulated alligator clip. Ideal for use with a wide variety of test equipment. Each set contains one red and one black test lead.

#390-125 . . . . . **\$2.95** (1-9) **\$2.50** (10-UP)

### Digital Multimeter

Value priced DMM performs basic functions and provides a 3-1/2 digit display, 0.8% basic DC accuracy, 4 VDC ranges up to 500V, 2 VAC ranges up to 500V, 1 DC amp range up to 200 mA, 4 resistance ranges up to 20M ohm, and diode test. Includes test leads, 9V battery, and manual.

#390-730 . . . . . **\$12.92** (1-3) **\$11.68** (4-UP)

### Velleman 10 MHz Handheld Personal Scope

#### Features:

- DC readout w/zero reference function
- Fully assembled and tested
- True RMS or peak to peak read out
- Markers for voltage and time
- Frequency readout through markers
- Screen hold function
- Probe setting: x1/x10
- Auto power off
- Low battery indication
- Contrast adjustment
- Auto set up
- Adjustable trigger level
- Trigger mode: normal, auto, or single

Part #	Description	Price Each
320-290	Handheld oscilloscope	<b>\$195.00</b>
320-286	10:1 probe	<b>14.90</b>

### Alligator Clip Set

This is a superior quality set of alligator clip leads compared to others on the market. Each clip is crimped AND soldered to ensure good conduction.

Features quality clips that close well and a strong spring to keep it closed. 10 piece set contains two of each: Black, red, white, green, and yellow. 22 gauge heavy insulation copper wire, 12" length.

#360-150 . . . . . **\$2.95** (1-9) **\$2.50** (10-UP)

### Audio Generator

This convenient handheld audio generator is perfect for field service of audio equipment and car stereo applications. It generates low distortion sine and square wave signals from 20 Hz to 150 kHz in 46 steps. It features a variable output level control with a 0 dB/-20 dB attenuator switch. Output level is 1.2V max (sine wave) no load and 8V max (square wave) no load. The output impedance is 600 ohms. Includes test leads, battery and owner's manual.

#390-650 . . . . . \$137.99 LIST **\$67.25** EACH
