AC Electrical

## Marinco® IEC Connector

This IEC connector is perfect for replacement or building your own audiophile grade power cords. Popular connector used in high-end electronic type equipment such as amplifiers. Heavy-duty vinyl connector body with cord restraint provides reliability. Perma-Lock™ Terminals actually "lock up" the screw's threads, therefore heat and vibration cannot loosen the screw. This exclusive design creates a superior low resistance connector. Rated at 125V, 15 amps and can accept up to 10 gauge wire.

#110-400 ..... \$19.80 (1-3) \$18.50 (4-UP)

## Marinco® Hospital Grade 125V Plug

This hospital grade plug is perfect for the replacement or building your own audiophile grade power cords. Meets or exceeds hospital grade (green dot) UL tests. Perma-Lock™ Terminals actually "lock up" the screw's threads, therefore heat and vibration cannot loosen the screw. This exclusive design creates a superior low resistance connector. The Marinco® Mag-Vu™ windows allow for fast verification of terminal connection through transparent/magnifying connector bodies. Rated at 15 amps and can accept up to 10 gauge wire.

#110-402 ..... \$13.74 (1-3) \$12.16 (4-UP)

## Marinco® Hospital Grade 125V Plug

Solid black hospital grade plug is perfect for replacement or building your own audiophile grade power cords. Meets or exceeds hospital grade (green dot) UL tests. Perma-Lock™ Terminals actually "lock up" the screw's threads, therefore heat and vibration cannot loosen the screw. Rated at 15 amps and can accept up to 10 gauge wire.

#110-403 ..... \$11.56 (1-3) \$10.45 (4-UP)

## Chassis Mount IEC Power Jacks

Constructed of high temperature, impact resistant UL94V-0 plastic. The heavy gauge contacts are made of nickel plated brass and will accept solder or .187" quick disconnects. Contact rating: 15A, 250 VAC. UL and CSA listed. Contact rating: 10A, 250 VAC. Fuse type: GMA (5 x 20 mm).

#090-442 (15A 250 VAC w/o fuse holder) ..... \$1.97 (1-3) \$1.32 (4-UP)

#090-443 (10A 250 VAC w/ fuse holder) ..... \$1.99 (1-3) \$1.64 (4-UP)

## IEC Male to Edison Style Female Power Cord Adapter

- Converts PC and amplifier power cables into Edison style power cable extensions
- Molded strain relief built into the connectors

Adapt any IEC power cable over to a traditional three-prong Edison style power cable extension. Each connector features a molded strain relief to extend the life of this adapter.

**NEW**

#110-120 ..... \$2.49 LIST \$1.76 (1-3) \$1.61 (4-UP)

## Cord Strain Reliefs

Cord strain reliefs for standard zip cord. Black color. 20 pieces per package.

Part #	Hole Size	Cord Size	Price (1-5)	Price (6-UP)
080-345	1/2"	.25"	\$1.65	\$1.40
080-350	9/16"	.30"	1.90	1.55

## 6 Ft. Power Cord

Common replacement power cord. Standard cord, non-polarized molded plug, stranded 18 gauge copper wire, two conductor, 18-2, SPT-1.

#110-030 (Black) ..... \$3.50 (1-9) \$3.00 (10-99) \$2.50 (100-UP)

# MARLNCO®

SPECIALTY WIRING DEVICES

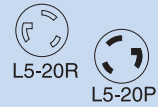

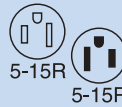

## Marinco® High-Performance Specialty AC Connectors

For almost 20 years, Marinco® has produced ultra-reliable wiring devices for fast, problem-free installations. From design to production, Marinco has the tightest possible control of quality assurance. Marinco's wiring devices for the entertainment industry feature a sleek black "out of sight" appearance. An oversized cable clamp traps the cord sizes 14 gauge all the way up to 10-3SO for exceedingly strong cord grip and minimal strain on terminal connections. Designed for fast installation, they offer close-set wire entrance holes, backed-out terminal screws, redundant color-coding for simplified, safe connections and oversized housings allow for convenient wire stripping and easy clamping. The rugged industrial-grade nylon housing provides excellent impact resistance, while neoprene cable gaskets keep dirt and dust out of the contact areas. The housings are also beveled to avoid catching on stairs, other equipment, etc.

Part #	Description	NEMA Config.	Price (1-3)	Price (4-UP)
110-404	15A 125V Straight-blade outlet	5-15	\$14.47	\$13.31
110-406	15A 125V Straight-blade plug	5-15	7.87	7.71
110-408	15A 125V Locking outlet	L5-15	17.50	16.50
110-410	15A 125V Locking plug	L5-15	9.54	9.32
110-416	20A 125V Locking outlet	L5-20	21.26	19.98
110-418	20A 125V Locking plug	L5-20	13.61	12.87

## Replacement Power Cords

- Great for audio and computer equipment
- UL listed, CSA approved (except 110-100)
- 3-prong grounded connector with molded ends
- Black in color

Part #	Fig.	Description	Length	Price (1-9)	Price (10-UP)
110-175	A	IEC power cord, 16-3 SJT, straight ends	6 ft.	\$3.90	\$3.63
110-180	A	IEC power cord, 18-3 SVT, straight ends	10 ft.	4.55	3.95
110-165	B	IEC power cord, 16-3 SJT, right angle IEC	6 ft.	3.85	3.30
110-170	B	IEC power cord, 18-3 SVT, right angle IEC	10 ft.	4.23	3.75
110-100	C	Standard grounded cord, 18-3 SJT	6 ft.	3.95	3.57

## AC Plug

Three prong plug can accept up to 12 AWG wires. New design completely encloses the housing, reducing the risk of accidental short circuit. UL and CSA approved.

#110-300 ..... \$3.61 (1-9) \$3.06 (10-UP)

## AC Receptacle

Three contact AC receptacle with removable cord clamp which accepts wires up to 12 AWG. A vinyl divider separates each circuit. Heavy duty contacts. UL and CSA approved.

#110-310 ..... \$6.52 (1-9) \$5.91 (10-UP)
