

Semiconductors and Components

NTE, the nation's leading semiconductor supplier, has earned a worldwide reputation for quality, service, and value. All NTE semiconductors are quality tested to meet or exceed industry specifications. All NTE products offer an exclusive two year manufacturer warranty. Parts Express stocks a full line of NTE semiconductors and components. Visit parts-express.com for current pricing and availability; pricing subject to change.

Potentiometers

- M8 x 6.5 mm L bushing
- 1/4 watt

Please refer to parts-express.com for a larger selection of potentiometers.

Troubleshooting and Repairing Consumer Electronics Without a Schematic

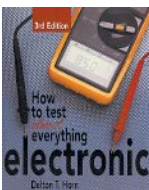

A common problem repair technicians face is troubleshooting electronic equipment without a schematic. With hundreds of illustrations, this indispensable guide demonstrates how to locate, test, and repair amplifiers, TVs, CD players, radios, power supplies, and more. Written by Homer L. Davidson. 462 pages. 3rd edition. Copyright: 2004.

#500-305 \$34.95 LIST **\$31.45** EACH

How To Test Almost Everything Electronic

Learn how to properly use multimeters, oscilloscopes, signal generators, and logic probes with this hands-on practical guide. Filled with helpful examples and easy to follow instructions, it will show you how to troubleshoot all types of electronic equipment from TV sets and VCRs to PCs. Perfect for students and hobbyists. 3rd edition. Written by Delton T. Horn. 326 pages. Copyright: 1993.

#500-064 \$21.95 LIST **\$19.75** EACH

1/2 Watt Flameproof Resistors

These low noise, metal oxide film resistors include a flame resistant, non-flammable coating. Each resistor is 1/2 watt with 5% tolerance. 10 per package.
