Sonic Barrier™ Damping Materials

Choose from the pure foam damping materials for sound absorption in relatively non-resonant structures, or use the multi-layer materials which add a special acoustic barrier and an extra 1/4" of foam, which effectively decouples the damping material from the cabinet walls. A very aggressive pressure sensitive adhesive provides easy and permanent installation onto any surface. Sold in 18" x 24" sheets.

Using Sonic Barrier™ foams in your loudspeaker project will help:

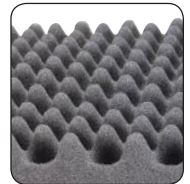

- Create an acoustically larger cabinet space, which allows a driver to work in a smaller cabinet
- Tighten and improve bass response
- Minimize panel resonances that can introduce additional distortion

Part #	Overall Thickness	Composition	Price (1-3)	Price (4-UP)
260-520	1/2"	1-layer foam	\$8.97	\$8.15
260-525	1"	1-layer foam	12.33	11.25
260-530	3/4"	1/2" foam - 1/2 lb. barrier - 1/4" foam	18.14	16.69
260-535	1-1/4"	1" foam - 1 lb. barrier - 1/4" foam	24.93	22.94

Convuluted Acoustic Foam

Specially designed, opened cell, flame retardant foam in a convuluted "egg crate" pattern. Helps to reduce muddy bass and cleans up the midrange by absorbing internal standing waves. Also ideal for small recording rooms and studios. Flame retardant in accordance with UL 94 HF-1 flammability testing. Sold individually in 24" x 18" pieces. Charcoal gray color.

Part #	Base to Peak Thickness	Price (1-15)	Price (16-31)	Price (32-UP)
260-515	2-1/2"	\$9.94	\$9.28	\$8.40
260-516	1-1/2"	6.89	6.17	5.63

Acousta Stuf™

Acousta Stuf™ is a sound absorbing, damping fiber that will deepen bass, provide cleaner midrange, and improve the dynamic extension of any speaker system. There are no health hazards with Acousta Stuf™ and no mask or gloves are needed when using this product. Most sealed enclosures require 1/2 lb. of damping material per cubic foot of enclosure.

Outperforms Common Dacron, Foam and Fiberglass!

#260-317 (1 lb. bag)	\$10.80 (1-9)	\$9.35 (10-UP)
#260-330 (5 lb. bag)	\$44.89 (1-9)	\$39.38 (10-UP)

Acoustic Damping Foam

Specially designed acoustic foam will not sponge-up water and resists extreme temperatures. Can be used in place of open cell foam and fiberglass to reduce trunk and door panel resonance. Also helps alleviate buzzes produced by subwoofers. 18" x 36".

#260-318	\$10.60 (1-9)	\$9.95 (10-UP)
