

## Router Buddy™ Kit

- Save money by converting your router into a multi-purpose tool
- Cuts infinitely adjustable circles from 2" to 18-1/2" diameter
- No base plate changes required, set-up takes seconds
- System is very light and compact
- Included fence allows you to cut dados and rabbets for perfect cabinet assembly
- Save time. Use template bushing when making multiple cabinets with the same size holes
- Easy to use

Practical Technologies, LLC

The Router Buddy is the Swiss Army knife for routers; it does more things than you can shake a stick at and is as easy to use as a shovel. This well engineered tool will allow you to cut accurate speaker holes, and with a thousandth of an inch adjustment you can be assured that your box joints will have properly sealed seams and joints. It's like having a milling machine in your hand. Router Buddy will fit most of the popular routers and can be adapted to fit all routers.

## Speaker Gasketing Tape

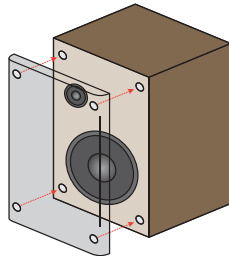

Finally! A foam gasketing tape designed specifically for loudspeakers! This specially designed foam tape is excellent for making an airtight seal around drivers, terminals, handles, horns, or any other item that needs to be installed in your cabinet! Made of closed cell PVC foam with a high-tack adhesive that aggressively sticks to all speaker frames 1/8" thick, sold in 50 ft. rolls.

| Part #         | Width | Price (1-3)   | Price (4-UP)  |
|----------------|-------|---------------|---------------|
| <b>260-540</b> | 3/8"  | <b>\$6.19</b> | <b>\$5.75</b> |
| <b>260-542</b> | 1/2"  | <b>6.48</b>   | <b>5.97</b>   |

## Magnetic Grill Fasteners

These round magnets are perfect for attaching speaker grills to cabinets. The powerful neodymium design will securely hold even the largest grill frames. To use, simply drill a 3/8" diameter hole, 3/16" deep in cabinet and grill frame. Glue the magnet into place using a suitable adhesive or epoxy while observing proper polarity. Magnet dimensions: 3/8" diameter x 3/16" thick. Eight magnets per package, enough to attach one grill.

## Jasper Circle Jigs

*If you're a speaker builder, then you need this tool!*

These jigs convert your router into a precision circle cutting device that will cut circles and mortises in 1/16" increments. Ideal

tool for creating highly accurate cutouts in custom built speaker cabinet baffles. Model 400 is perfect for small tweeters and midranges. Designed for use with MDF, plywood, particle board, solid woods and plastic sheet. Mounts directly to the base of 19 different models of routers including Bosch 1613 and 1615, DeWalt 621 and 625, Freud FT2000E, Hitachi M8V, TR12 and M12V, Porter Cable 693 and 7539, Skil 1823 and 1825, and all Sears, Ryobi and Makita models. Made in the USA.

| Part #         | Mfg. #                           | Hole Size       | Price          |
|----------------|----------------------------------|-----------------|----------------|
| <b>365-255</b> | 400                              | 1"-7-1/2"       | <b>\$26.62</b> |
| <b>365-250</b> | 200                              | 2-1/4"-18-3/16" | <b>38.88</b>   |
| <b>365-260</b> | Combo Pack (#365-255 & #365-250) |                 | <b>54.90</b>   |

## Grill Frame Kits

- Create professional looking grills
- Simple assembly process

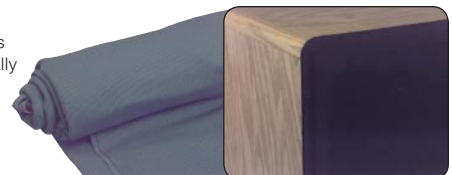

Now you can make custom speaker grills with these interlocking grill frame kits. Available in small corner and large corner, the small corner kit is perfect for bookshelf or tower cabinets and the large corner kit comes with a cross brace and is great for larger cabinets. Each frame is made of sturdy ABS plastic and can make grills up to 36" square. Corner kits (4 pcs) are available separately allowing two smaller frames to be made from a single kit. Each kit comes complete with grill guides. Requires a 5/8" hole in baffle for grill guide socket. Simple to make—you just cut to size, assemble, glue, and apply grill cloth (sold separately). Sold individually.

| Part #         | Description            | Price (1-3)    | Price (4-UP)   |
