

Speaker Terminal

Quick release, spring loaded terminal. Red/black polarity identification. Accepts up to 12 gauge wire. Dimensions: 2-1/8" x 15/16". Includes gasket.

#260-300 **59¢** (1-9) **53¢** (10-49) **47¢** (50-UP)

Speaker Output Terminal

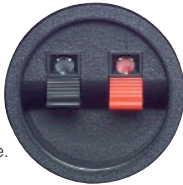

4 output, quick release spring loaded speaker terminal. Right/left identification. Accepts up to 12 gauge wire. Dimensions: 2-3/4" x 15/16". Includes gasket.

#260-305 . . **\$1.63** (1-9) **\$1.39** (10-49) **\$1.07** (50-UP)

Pressfit Speaker Terminal

Spring loaded, pushbutton speaker terminal in a round housing. No screws required to fasten; simply drill a 1-7/8" hole, apply glue, and press into place. Accepts up to 12 gauge wire. Overall size: 2-3/16" round.

#260-295 **75¢** (1-9) **65¢** (10-49) **59¢** (50-UP)

Square Pressfit Terminal

Quick release, spring loaded terminal. Pressfit design for easy installation. Accepts up to 12 gauge wire. Overall size: 2-3/16" x 2-3/16"; cutout: 1-7/8" round. Includes gasket.

#260-296 **73¢** (1-9) **68¢** (10-49) **61¢** (50-UP)

Round Speaker Terminal

Spring loaded, pushbutton terminal with polarity identification. Accepts up to 12 gauge wire. Overall size: 2-15/16" round; cutout: 1-7/8" round. Includes gasket.

#260-294 . **\$1.18** (1-9) **\$1.02** (10-49) **78¢** (50-UP)

Square Speaker Terminal

Spring loaded, pushbutton terminals. Color coded for polarity identification. Accepts up to 12 gauge wire. Overall size 2-3/16" x 2-3/16"; cutout: 2" round. Includes gasket.

#260-297 . **\$1.21** (1-9) **\$1.02** (10-49) **76¢** (50-UP)

Rectangular Speaker Terminal

Rectangular terminal with binding posts. Includes gasket for a leak free seal. Color coded. Accepts up to 10-12 gauge wire. Can also be used with dual banana plugs. Dimensions: 2-1/8" x 15/16". Includes gasket.

#260-301 . . . **\$2.18** (1-3) **\$1.96** (4-49) **\$1.57** (50-UP)

Gold Speaker Terminal

Rectangular terminal with gold plated binding posts. Includes gasket for a leak free seal. Color coded. Accepts up to 10-12 gauge wire. Can also be used with dual banana plugs. Dimensions: 2-1/8" x 15/16". Includes gasket.

#260-302 . **\$3.49** (1-9) **\$2.96** (10-49) **\$2.77** (50-UP)

High Power Speaker Terminal

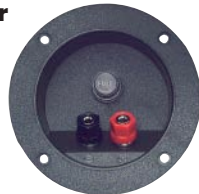

High current binding post design. Good for applications over 150 watts. Angled for easy access. Accepts up to 10-12 gauge wire. Can also be used with dual banana plugs. Overall size: 3-1/8" x 3-5/8"; cutout: 2-7/8" x 2-1/8". Includes gasket.

#260-303 . **\$3.49** (1-9) **\$2.96** (10-49) **\$2.77** (50-UP)

High Power Terminal w/Fuse Holder

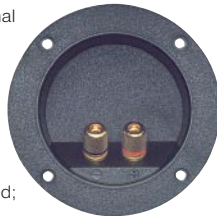

Recessed-mount terminal with high current binding post type connectors. Built-in AGC fuse holder. Accepts up to 10-12 gauge wire. Can also be used with dual banana plugs. Includes gasket. Overall size: 4-1/8" round; cutout: 3-1/8" round.

#260-293 . **\$4.23** (1-9) **\$3.66** (10-49) **\$3.25** (50-UP)

Gold Speaker Terminal

Recessed-mount terminal with gold plated posts and knurled knobs. Accepts up to 8 gauge wire with color identification. Can be used with dual banana plugs. Includes gasket. Overall size: 4-1/8" round; cutout: 3-1/8" round.

#260-311 . **\$4.87** (1-9) **\$4.59** (10-49) **\$4.19** (50-UP)

Gold Speaker Terminal

Rectangular recessed panel with gold plated posts and knurled knobs. Color coded. Accepts up to 8 gauge wire. Can also be used with dual banana plugs. Overall size: 3-5/8" by 3-1/8"; cutout: 2-7/8" x 2-1/8". Includes gasket.

#260-309 . **\$4.87** (1-9) **\$4.59** (10-49) **\$4.19** (50-UP)

Gold Supreme Power Terminal

For super high current applications, this gold plated binding post is 9/16" thick! Entry hole will accept up to 4 gauge wire. Color coded for polarity identification. Dimensions: 4-3/4" x 2".

#260-314 **\$10.63** (1-9) **\$10.35** (10-49) **\$9.29** (50-UP)

Satin Nickel Speaker Terminal

NEW

Round recessed panel with satin nickel plated spring-loaded terminals. Color coded. Accepts up to 8 gauge wire. Can also be used with dual banana plugs. Overall size: 2-7/8", cutout: 1-7/8". Includes gasket.

#260-292 . **\$4.98** (1-9) **\$4.15** (10-49) **\$3.56** (50-UP)

Gold Speaker Terminal Spring-Loaded

Square recessed panel with gold plated spring-loaded terminals. Color coded. Accepts up to 8 gauge wire. Overall size: 3-1/8" square, cutout: 2-1/8" round. Includes gasket.

#260-280 . **\$5.27** (1-9) **\$4.39** (10-49) **\$3.77** (50-UP)

Gold Speaker Terminal Spring-Loaded

Round recessed panel with gold plated spring-loaded terminals. Color coded. Accepts up to 8 gauge wire. Overall size: 2-7/8", cutout: 1-7/8". Includes gasket.

#260-276 . **\$4.98** (1-9) **\$4.15** (10-49) **\$3.56** (50-UP)

Gold Bi-Amp Speaker Terminal

Recessed mount speaker terminal with two pair of gold plated binding posts. Perfect for speakers that utilize a separate amp for woofer and tweeter. Gold plated bridging bars included for conventional applications. Also ideal for dual voice coil subwoofer input and output terminals. Accepts up to 8 gauge wire. Can also be used with dual banana plugs. Overall size: 4-13/16" x 3-3/4"; cutout: 3-7/8" x 3". Includes gasket.

#260-281 . **\$9.81** (1-9) **\$7.85** (10-49) **\$6.87** (50-UP)

Satin Nickel Bi-Amp Speaker Terminal

Recessed mount speaker terminal with two pair of satin nickel binding posts. Perfect for speakers that utilize a separate amp for woofer and tweeter. Nickel plated bridging bars included for conventional applications. Also ideal for dual voice coil subwoofer input and output terminals. Accepts up to 8 gauge wire. Can also be used with dual banana plugs. Overall size: 4-13/16" x 3-3/4", cutout: 3-7/8" x 3". Includes gasket.

#260-286 . **\$9.81** (1-9) **\$7.85** (10-49) **\$6.87** (50-UP)
