

Deluxe Ceiling Baffle Assembly

This contemporary looking, recessed ceiling baffle is perfect for office PA and background music applications. The unique concentric diffuser provides a wide degree of equal sound distribution in any office environment. Unit comes with an 8", 10 watt, 8 ohm, full range speaker and a 70.7V multi-input line matching transformer.

#300-030 \$15.80 (1-3) \$14.80 (4-19) \$13.33 (20-UP)

Tesla 8" 2-Way

Full range, 2-way ceiling speaker with integrated cone tweeter. Perfect background music speaker. 10 oz. magnet, 8 ohm impedance, 20 watt RMS power handling capability. Frequency response: 100-20,000 Hz. Standard EIA 4 hole mounting configuration with matching transformer bracket.

#300-007 \$13.56 (1-3) \$11.97 (4-19) \$10.61 (20-UP)

8" Full Range Speaker

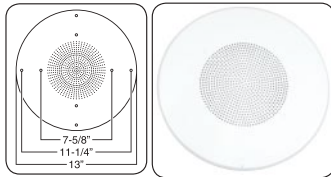

A full range, wide dispersion loudspeaker ideally suited to voice and background music. 12 oz. ceramic magnet, 1" aluminum voice coil. 8 ohm impedance. Capable of handling 10 watts RMS, 20 watts maximum input. Response: 45-15,000 Hz. EIA standard 4 hole mounting. Also available with 70V line matching transformer.

#300-010 \$7.95 (1-3) \$7.55 (4-19) \$6.58 (20-UP)
 #300-020 (With transformer) \$9.90 (1-3) \$9.50 (4-19) \$8.50 (20-UP)

Round Ceiling Grill

12" white painted metal grill resists fading and is easily cleaned. Accepts standard 8" speaker (EIA). Not compatible with Fourjay ceiling systems.

#300-070 \$4.75 (1-3) \$3.90 (4-19) \$3.50 (20-UP)

Decora Style 70V Speaker Attenuator Wall Plates

This Decora style volume control is designed for 70V line PA speakers and features 10 steps of attenuation via detented control. Fits most standard single-gang electrical junction boxes. Screw type connectors accept up to 14 ga. wire for ease of installation. Frequency response: 35-20,000 Hz. Power handling: 30 watt RMS. Mounting depth: 2-1/16". Includes Decora style faceplate.

#300-046 (White) \$22.15 (1-9) \$19.97 (10-UP)
 #300-047 (Ivory) \$22.15 (1-9) \$19.97 (10-UP)

70V Speaker Attenuator Wall Plates

Controls the volume of 70V line PA speakers via a 10 step detented control. Wall plate features a white-finish stainless steel face and fits most standard single-gang electrical junction boxes. Screw type connectors accept up to 14 ga. wire for ease of installation. Frequency response: 35-20,000 Hz. Available in 15 and 30 watt RMS power ratings.

#300-043 (15 watt) \$18.95 (1-9) \$17.83 (10-UP)
 #300-044 (30 watt) \$19.94 (1-9) \$18.19 (10-UP)

Pro Audio

70V Commercial

70 Volt High Power Line Matching Transformers

These high quality transformers are designed to convert the output of any standard 4 or 8 ohm amplifier for use with a 70.7V public address sound distribution system. Available in 100 watt RMS and 200 watt RMS power handling. Frequency response: 40-20,000 Hz. Minimum efficiency: 85%. Mounting holes: 100W: 2.3" x 3.15" (center to center), 200W: 2.83" x 3.15" (center to center).

#300-225 (100 watt) \$45.00 (1-3) \$40.15 (4-UP)
 #300-226 (200 watt) \$59.90 (1-3) \$53.75 (4-UP)

15 Watt Line Matching Transformer

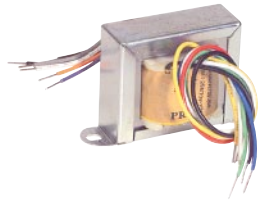

Constant voltage, isolated line matching transformer for use with public address amplifiers utilizing a 70.7V carrier line for sound transmission. Frequency response: 40-20,000 Hz. Secondary impedance: 4 or 8 ohms. Tap at 5W, 7.5W, 10W, and 15W. Minimum efficiency: 80%. Mounting holes: 2.75" (center to center).

#300-039 \$5.95 (1-9) \$5.28 (10-UP)

10 Watt Line Matching Transformer

Constant voltage, isolated line matching transformer for use with public address amplifiers utilizing a 70.7V or 25 volt carrier line for sound transmission. Frequency response: 100-12,000 Hz. Secondary impedance: 4 or 8 ohms. Tap at 62W, 1.25W, 2.5W, 5W, and 10W. Minimum efficiency: 77%. Mounting holes: 2.4" (center to center).

#300-040 \$4.25 (1-9) \$3.84 (10-UP)

8 Ohm Speaker Attenuator Wall Plate

Quality, brushed finish plate fits standard electrical outlet box. Adjustable control with level indicator. 15 watt L-pad circuit. Can also be flush wall mounted. 8 ohm impedance.

#300-045 \$4.86 (1-9) \$4.37 (10-UP)

Bogen AT10A Single Gang 10 Watt 25V/70V Volume Control

BOGEN
COMMUNICATIONS, INC.

- Adjusts loudspeaker output levels on 25V and 70V systems
- Controls up to 10-watt speaker systems
- 10 attenuation steps and an off-setting
- Mounts in standard electrical box
- Simple connections

The AT10A attenuator allows the output level of a group of loudspeakers to be set from a wall-mounted volume control, without affecting overall amplifier volume settings. This rugged attenuator has 10 levels of sound control, plus an "off" setting. Dimensions: 2-7/8" W x 4-5/8" H x 2-1/2" D.

#241-940 \$44.22 LIST \$28.90 EACH

Bogen AT35A Dual Gang 35 Watt 25V/70V Volume Control

- Adjusts loudspeaker output levels on 25V and 70V systems
- Controls up to 35-watt speaker systems
- 10 attenuation steps and an off-setting
- Mounts in standard electrical box
- Simple connections

The AT35A attenuator allows the output level of a group of loudspeakers to be set from a wall-mounted volume control, without affecting overall amplifier volume settings. This rugged attenuator has 10 levels of sound control, plus an "off" setting. Dimensions: 4-3/4" W x 4-3/4" H x 3" D.

#241-942 \$49.06 LIST \$29.95 EACH
