## TASCAM® MAKE IT HAPPEN

### TASCAM CD Series Guitar, Bass, and Vocal/Instrument Trainers

- VSA (Variable Speed Audition: pitch control without affecting key)
- +16 to -50% Pitch Control in 1% steps (when VSA is off)
- Single Play and Continuous Play
- 10-second anti-shock memory
- Metronome and Chromatic Tuner
- Battery included, optional power supply (PS-P520) available
- Guitar or Vocal Cancellor makes it easy to play/sing along (CD-GT1 and CD-Vt1 only)

#246-304

If you can operate a CD player, you can use a TASCAM CD Trainer. Take any standard compact disc by your favorite band and put it in the CD mechanism, plug a microphone or instrument directly into the inputs, put on some headphones, set the volume, and start rocking! Dimensions: 9.1" x 5.4" x 1.6."

- #246-304 (CD-GT2 Guitar Trainer)
- #246-306 (CD-BT2 Bass Trainer)
- #246-308 (CD-VT2 Vocal/Instrument Trainer) . . . . . \$219.99 LIST **\$159.00 EACH**

Part #	Description	List Price	Price Each
246-302	Optional power supply for CD Trainers	\$29.99	<b>\$25.00</b>
246-314	Optional footswitch for GT2 & BT2	39.99	<b>\$2.00</b>

### TASCAM US-122L USB 2.0 Audio/MIDI Interface

- Two XLR mic inputs with phantom power
- Two analog line inputs (one switchable to high impedance for use with guitars, basses, etc.)
- One MIDI input, one MIDI output
- USB 2.0 equipped (also supports USB 1.1)
- Zero-latency hardware monitoring
- Headphone/level control
- Bus powered for use with any PC or Mac, including laptops

Record two tracks at a time with zero latency; whether you have a PC or a Mac, your song ideas go down in real time, real easy. The TASCAM US-122L's size means you can take it anywhere you take your laptop, yet it's packed with features that make buying it a no-brainer. MIDI input and output, high quality mic inputs, 96 kHz/24-bit recording (better than CD quality)—all the stuff you want without the fluff you don't.

- #246-328 . . . . . \$199.99 LIST **\$129.00 EACH**

### TASCAM 202mkV Professional Dual Well Cassette Deck

- New: Return to Zero
- New: A-B repeat (20 times)
- Continuous play and recording
- ±12% pitch control on deck 1
- Both decks record for simultaneous masters
- Normal and Hi speed dubbing
- Dolby® NR B type and HX PRO
- 3U rack mountable

TASCAM's 202mkV dual cassette deck is the only choice for professional studios, houses of worship and other installations needing reliable cassette performance. New on the mark V model are a return to zero feature and A-B repeat, which can playback a section of tape up to 20 times.

- #246-357 . . . . . \$525.99 LIST **\$399.00 EACH**

### TASCAM CD Recorders

- 2U rack mount design
- ±16% pitch control in 0.1% steps (CD audio discs only)
- MP3 audio playback
- Key Original (CD audio discs only)—changes playback speed without changing pitch
- Fade in/fade out recording features
- Automatic sample rate converter (to 44.1kHz, defeatable)
- All, single, program, random play, and repeat play modes
- Power-on play—starts disc playback when power is applied
- Unbalanced RCA inputs and outputs (balanced XLR on CD-RW901)
- Coax and optical S/PDIF digital inputs and outputs
- Wireless remote control (wired remote on CD-RW901)

TASCAM's CD-RW900 is a pro CD recorder that fits into two rack spaces. Dedicated analog input controls are provided on the front panel, and a digital input trim is also controllable. The CD-RW901 starts with the features of the CD-RW900, and adds XLR balanced analog I/O, a wired remote control, and many other features professionals demand.

- #246-340 (CD-RW900) . . . . . \$699.99 LIST **\$599.00 EACH**
- #246-342 (CD-RW901SL) . . . . . \$1,125.99 LIST **\$929.00 EACH**

### TASCAM Combination CD Player & Cassette Recorders

- CD to tape dubbing include Edit dubbing
- Power on play (CD and tape), Power on record (tape only)
- CD-DA (support CD-R/RW disc), MP3, and WAV file play
- CD Text and ID3 tag
- Pitch control for CD (±12.5%) and cassette (±10%)
- Auto reverse cassette playback and recording
- Dolby® B noise reduction
- Tape type: normal, chrome and metal (play only)
- 55-key wireless remote control

TASCAM has updated its best-selling combination CD players/cassette recorders. The CD-A550 and CD-A750 are combination CD player and cassette recorders with unbalanced phono inputs and outputs; the CD-A750 adds balanced XLR ins and outs, and RS-232 control. Contractor-specific features such as power-on play, a wired remote control, rack-mountable design, and CD shock memory ensure reliable performance. Other new features include MP3 and WAV file playback, CD Text display, Auto Cue and Auto Ready.

- #246-347 (CD-A550) . . . . . \$599.99 LIST **\$479.99 EACH**
- #246-349 (CD-A750) . . . . . \$799.99 LIST **\$629.99 EACH**

### TASCAM TU-690 AM/FM Stereo Tuner

- 2U rack-mountable AM/FM tuner
- 30 AM and 30 FM station presets, for 60 total presets
- 10-key pad for direct station tuning or presets
- AM and FM antenna connections on rear panel
- 150 to 75 ohm adapter, antenna, and IR remote included
- Sleep timer

When all you need is a simple AM/FM radio in your rack, the TU-690 is the perfect fit. The large, clear display can be read from across the room. The 10-button keypad is handy for dialing station frequencies, or for recalling one of the 60 preset stations.

- #246-364 . . . . . \$329.99 LIST **\$269.00 EACH**
