262-664	LBP-1A	"L" bar, straight	29.05

8 Ft. Rack Ruler

No time for rack space math? Use our rack ruler instead. It's a genuinely handy tape measure incremented in both rack spaces (red) and inches (black) down to 1/32" scale. Measuring 2" wide by 96" (8 ft.) long, its Mylar-coated retracting steel tape is housed in a tough ABS case with a thumb lock and belt clip. Includes audio formulas, charts and pinouts on the reverse side of the tape. This is a rugged tool, not a toy.

#262-695 \$16.85 (1-3) **\$15.87** (4-UP)

Dayton Audio Rack Screws 100 Pcs.

NEW

#10-32 x 5/8" screw made specifically for attaching shelves and panels to rack systems. The screws feature an easy-start tip that inserts into the threaded screw hole and maintains its place while starting the screw. The black nylon washer is molded to match the taper of the screw head ensuring the washer is centered with respect to the screw. Black oxide finish. 100 pcs. per package. Mfg. #RS1032PK.

Dayton Audio Vented Rack Panels

NEW

- Flanged edges for structural support
- One-piece steel construction
- Black matte painted finish

Vented rack panels from Dayton Audio are ideal for creating a completed look to your equipment rack without reducing airflow to critical components. Made from 15 gauge perforated steel and painted matte black. Flanged edges reduce flexing. Fits standard 19" racks.

Slim 5 Series 19" Equipment Racks

The Slim 5 rack enclosures are built using a proprietary bolt-together design which can be shipped knocked-down via UPS. As strong as a welded cabinet, each enclosure is equipped with 2 pairs of fixed 11-gauge, #10-32 threaded rackrail front and rear, and features heavy-duty 14-gauge (.078") steel top and bottom, as well as 1/2" and 3/4" rear electrical knockouts. Capable of being ganged together with or without an optional cable chase kit. Slim 5 racks are complemented by a number of available options offering added versatility and aesthetic appeal. Also includes accommodations for the PD series of vertical AC power strips (PB-5A bracket required). 19-1/8" overall width, 20" deep. Optional steel side panels and casters available.
