

StreetWires Power Delivery Kits

StreetWires Power Delivery Kits are the perfect answer for any installation, from small single amps to large single or multi-amplifier projects. They feature everything the DIY installer needs, making the task of installing your new system quick and painless.

StreetWires 8 AWG Power Station Amp Kits

- Designed for a single-amplifier installation of up to 300 watts
- A smaller version of the 4 AWG kit
- Available in two color combinations

Includes: • 18 ft. 8 AWG power cable • 5 ft. 8 AWG ground cable • 16 ft. 18 AWG remote wire • One AFS fuse holder w/60A fuse • One 18 AWG spade terminal • One 5/16" ring terminal • One 3/16" ring terminal • One red butt connector • Two 8 AWG spade terminals • 6 cable ties • 'I' versions include RCA patch cable.

Part #	Mfg. #	Description	List Price	Price Each
263-177	PSK08R	Red 8 AWG	\$49.99	\$39.89
263-176	PSK08B	Blue 8 AWG	49.99	39.89
263-175	PSK08RI	Red 8 AWG w/interconnect	69.99	55.89
263-174	PSK08BI	Blue 8 AWG w/interconnect	69.99	55.89

StreetWires 4 AWG Power Station Amp Kits

- Designed for a single-amplifier installation of up to 600 watts
- Available in two color combinations

Includes: • 18 ft. 4 AWG power cable • 5 ft. 4 AWG ground cable • 16 ft. 18 AWG remote wire • One AFS mini-wafer fuse holder w/100A fuse (PSK04R/B) or one AGU fuse holder w/80A fuse (PSK04RI/BI) • One 18 AWG spade terminal • One 5/16" ring terminal • One 3/16" ring terminal • One red butt connector • Two 4 AWG spade terminals • 8 cable ties • 'I' versions include RCA patch cable.

Part #	Mfg. #	Description	List Price	Price Each
263-181	PSK04R	Red 4 AWG	\$89.99	\$69.89
263-180	PSK04B	Blue 4 AWG	89.99	69.89
263-179	PSK04RI	Red 4 AWG w/interconnect	109.99	87.89
263-178	PSK04BI	Blue 4 AWG w/interconnect	109.99	87.89

StreetWires 4 AWG Power Station Multi-Amp Kits

- Designed for multiple-amplifier systems
- Available in two color combinations to complement any installation
- Designed for systems up to 600 watts

Includes: • 18 ft. 4 AWG power cable • 10 ft. 8 AWG power cable • 8 ft. 8 AWG ground cable • 16 ft. 18 AWG remote wire • One AFS fuse holder w/80A fuse • One distribution block (one 4 AWG in four 8 AWG out) • Two 18 AWG spade terminals • One 5/16" ring terminal • Two 3/16" ring terminals • One red butt connector • Four 8 AWG spade terminals • 8 cable ties.

#263-183 (Red-PSK04RM) \$119.99 LIST **\$95.89** EACH
#263-182 (Blue-PSK04BM) \$119.99 LIST **\$95.89** EACH

Large Diameter Cable Cutter

Cuts up to 4/0 aluminum and 2/0 copper wire. Carbon steel construction with extra long handles for maximum cutting leverage. Jaws of cutter are curved for a quick and easy cut. Small shearing hole for cutting steel wire up to 3.0 mm prevents the blade from getting dull or nicked. Overall length is 9-1/4".

#360-624 **\$13.29** (1-5) **\$11.97** (6-UP)

StreetWires PSK00B 1/0 AWG Power Station Amp Kit

- Designed for systems up to 3,000 watts
- Blue power cable with clear ground cable

Today's monstrous amplifiers need big cable, especially if the power needs to run long distances. For example, from the battery to the rear of a large SUV can be a distance of up to 18 feet. Designed for systems up to 3,000 watts, the PSK00B kit includes the majority of parts any enthusiast needs to wire a big system with multiple amplifiers. It provides easy solutions for high power audio systems by including 18 feet of true 1/0 AWG power cable and a heavy duty waterproof ANL fuse holder with a 200-amp fuse, which protects from damage and offers increased reliability. The PSK00B specializes in providing the essentials for any high power audio system while still allowing for customization.

Includes: • 18 ft. 1/0 AWG blue power cable • 5 ft. 1/0 AWG clear ground cable • 16 ft. 18 AWG remote wire • One ANL wafer fuse holder w/200A fuse • One firewall grommet • Two 5/16" ring terminals • One red butt connector • 8 cable ties • Mfg. #PSK00B.

#263-184 \$199.99 LIST **\$159.89** EACH

StreetWires PSK00BX 1/0 AWG Power Station Amp Kit

- Designed for systems up to 3,000 watts
- Blue power cable with clear ground cable
- Premium kit includes battery clamp and ring terminal

Today's monstrous amplifiers need big cable, especially if the power needs to run long distances. For example, from the battery to the rear of a large SUV can be a distance of up to 18 feet.

Designed for systems up to 3,000 watts, the PSK00BX kit includes the majority of parts any enthusiast needs to wire a big system with multiple amplifiers. It provides easy solutions for high power audio systems by including 18 feet of true 1/0 AWG power cable and a heavy duty waterproof ANL fuse holder with a 200-amp fuse, which protects from damage and offers increased reliability. The PSK00BX specializes in providing the essentials for any high power audio system while still allowing for customization.

Includes: • 18 ft. 1/0 AWG blue power cable • 5 ft. 1/0 AWG clear ground cable • 16 ft. 18 AWG remote wire • One ANL wafer fuse holder w/200A fuse • One (+) battery terminal • One 1/0 AWG Power Ring™ ring terminal • One 1/0 AWG ground terminal • One firewall grommet • Two 18 ga. spade terminals • One red butt connector • 8 cable ties • Mfg. #PSK00BX

StreetWires Ultra Flow® Power Cable

"The ultimate performance power cable"

- Translucent jacket with silver-colored, tinned copper wire
- 105°C temperature rating

StreetWires power cables feature highly flexible rope-lay wire construction, which prevents kinking and provides more installation options. The Poly Flex™ insulation offers the most secure protection from heat, chemical reactions, and the harsh under-hood environment. For unbridled power flow and ultra-low DC resistance, these cables are built from the purest oxygen-free (OFC), fine-stranded copper and the finest electrical-grade insulation.
