Signal & Power Distribution

StreetWires BC4PF Fused Battery Clamp

- One fused and three direct outputs
- Battery clamp is machined from forged brass
- Battery terminal, fuse holder, and distribution block all in one device
- Super Torx™ clamping system assures connection integrity

Features one fused PowerRing® output connection and three direct, non-fused outputs via compression screw (one 4 AWG and two 8 AWG). Includes red (+) polarity marking and impact resistant cover. Requires AFS type mini wafer fuse for PowerRing® connection functionality (sold separately). Mfg. #BC4PF.

#263-651 \$49.99 LIST **\$39.89 EACH**

StreetWires FBXS024 Fused Distribution Block

- 1/0 AWG main input feed-thru connection
- Two fused 4 AWG outputs
- 100% forged brass lugs for maximum current capability
- High strength polycarbonate base and cover
- For use with AFS mini-wafer fuses (sold separately)

#263-611 \$49.99 LIST **\$31.89 EACH**

StreetWires Power Distribution Blocks

- Single input design for systems with up to 4 amplifiers
- Solid brass construction with Diamond Plate Nickel finish

There is no higher-performing option for power distribution than StreetWires power blocks. For the highest current delivery with the lowest power loss, StreetWires power blocks are machined from solid brass billet then pulse-plated with Diamond Plate Nickel. Two-step termination wire cavities are up to four times deeper than other brands, preventing DC resistance and heat buildup while making a neat, clean installation. Ring input versions accept any gauge power cable with a 5/16" ring terminal.

Part #	Mfg. #	Input	Output	Price List	Price Each
263-613	DBX44	Ring (1)	4 AWG (4)	\$39.99	\$29.89
263-614	DBX30	Ring (1)	1/0 AWG (3)	39.99	29.89
263-616	DBX3448	4 AWG (3)	8 AWG (4)	29.99	24.89

StreetWires Battery Clamps

#263-627

#263-628

StreetWires battery clamps are machined from forged brass and utilize an advanced clamping technique to assure connection integrity. Features one (BC1) or two (BC2) PowerRing® output connections and one 8 AWG output via compression screw. Includes polarity markings and impact resistant cover.

Part #	Mfg. #	Polarity	Price List	Price Each
263-628	BC1P	(+) Positive	\$24.99	\$15.89
263-629	BC1N	(-) Negative	24.99	15.89
263-626	BC2P	(+) Positive	29.99	19.89
263-627	BC2N	(-) Negative	29.99	19.89

StreetWires Inter-Lok® PowerRing® Terminals

- The industry standard — there is no more secure or higher-conductivity connection than the precision machined, compression fit Inter-Lok®
- Maintains gas-tight contact with every strand of wire
- Machined wrench-flats allow easy tightening
- Machined external sculpting turns power delivery into a work of art

StreetWires PowerRing® Terminals deliver more power to any gauge power cable. Machined from solid virgin, high-conductivity brass and heavily plated, these ring terminals ensure that the system's components will get more power with less voltage loss and heat buildup than any other terminal. Two-step termination provides the cleanest connection with the best power cable protection. Each ring is custom screen-printed for easy polarity identification and a professional appearance. One red/black pair per package.

#263-638 (PRI0 - 1/0 AWG) \$34.99 LIST **\$24.89 PAIR**

#263-639 (PRI4 - 4 AWG) \$29.99 LIST **\$19.89 PAIR**

StreetWires PowerRing® Set Screw Ring Terminals

- Extra-large set-screw ensures tight contact with more strands than other set screw terminals
- Heavy brass construction delivers every bit of power from even the largest gauge power cable

StreetWires PowerRing® Terminals deliver more power to any gauge power cable. Machined from solid virgin, high-conductivity brass and heavily plated, these ring terminals ensure that the system's components will get more power with less voltage loss and heat buildup than any other terminal. Two-step termination provides the cleanest connection with the best power cable protection. Each ring is custom screen-printed for easy polarity identification and a professional appearance. One red/black pair per package.

Part #	Mfg. #	Wire Gauge	Price List	Price Pair
263-643	PRS8	8	\$14.99	\$ 9.89
263-642	PRS4	4	19.99	12.89
263-641	PRS0	1/0	24.99	15.89

StreetWires Crimp Ring Terminals

These crimp ring terminals feature brass tube-type construction for cleaner more professional termination and Pulse plated finish to resist finish damage.

Part #	Mfg. #	Hole Dia.	Wire Gauge	Pkg. Qty.	List Price	Our Price
263-649	RTC8S	5 mm	8	4	\$9.99	\$6.89
263-648	RTC4S	5 mm	4	4	9.99	6.89
263-647	RTC0S	5 mm	1/0	2	9.99	6.89
263-646	RTC8L	8 mm	8	4	9.99	6.89
263-645	RTC4L	8 mm	4	4	9.99	6.89
263-644	RTC0L	8 mm	1/0	2	9.99	6.89

StreetWires Battery Post Adapters

StreetWires battery post adapters are machined from billet brass and includes polarity markings. Sold individually (BASTC side to top mount converters sold in pairs.)

Part #	Mfg. #	Description	Price List	Price Each
263-631	BAGMT	GM truck adapter	\$11.99	\$7.89
263-633	BASML	Side mount adapter (long)	9.99	6.89
263-634	BASMS	Side mount adapter (short)	9.99	6.89
263-632	BASTC	Side to top mount converters	11.99	7.89

StreetWires Ground Terminals

- Ultra-secure, low-resistance grounding
- Precision machined from forged brass
- Two-step termination
