

Ultra Compact DC To AC Power Inverters

AC power. Anywhere you go!

- Integrated fuse protection
- High value, low cost
- All-metal housing
- Low battery-voltage alarm/shutdown
- Illuminated on/off switch
- Built-in cooling fan (Except PV 150)

The Tripp Lite PowerVerter® power inverters supply AC power that goes where you go! With advanced modified sine-wave output these four models are ideal for powering most small appliances, tools, and mobile office equipment. Outfit your vehicle or trailer with an entire kitchen/entertainment system! Just connect to any 12 VDC source (via cigarette lighter plug for models PV 375 and PV 150) and convert vehicle battery power to clean, safe, and efficient 120 volt AC power.

Cobra Power Inverters

AC power that goes where you go!

- Compact size
- Low-voltage / over-voltage shutdown with alarm
- Reverse polarity and thermal shutdown protection
- CPI 480 includes cigarette lighter plug and direct-to-battery cables
- CPI 875 includes storage case and direct-to-battery cables
- CPI 1000 includes direct-to-battery cables
- CPI 1000, CPI 1575, and CPI 2575 feature an LED Function/Status Volt/Watt meter and remote on-off capability (requires CPI A20, sold separately)

Use everything from office equipment to household appliances in your car, truck, RV, or boat. Just connect to any 12 VDC source and convert vehicle battery power to clean, safe and efficient 120 volt AC power. Cobra's new inverter series also incorporates a USB output, ideal for charging and operation of most small video games and modern office devices such as iPods®, Blackberrys®, and mobile phones. Two-year manufacturer's warranty.

Note: To determine required wattage for a device (if the actual wattage rating is not given), look up the Amps a device is rated. The amperage is found on the device's ID tag, usually on the rear of the unit. Multiply the Amps of the device by 120 to determine required wattage (Amps x Volts = Watts). Choose an inverter with an equal or greater wattage rating.

High Current DC Power Connectors

These "breakaway" DC power connectors are perfect for use as a quick disconnect for car audio amplifiers. Can also be used for high current DC charging circuits, RV, and marine applications.

- Rated at 600 VDC
- High impact polycarbonate housing
- Each connector kit includes two contacts and housing
- Requires two pieces for operation, sold individually
- Silver plated solid copper contacts for superior conductivity and corrosion resistance
