## Installation Accessories

### Wiring Harness Adapters

**Turbowires™** have been color-coded using the aftermarket radio industry standard (E.I.A. Color Code). Features a high impact, OEM quality, ABS plastic molded connector for the perfect fit. A handy chart on the back of the package allows you to easily make all of the radio's wire connections. For a complete listing and an interactive cross reference for all our Metra products, visit [parts-express.com](http://parts-express.com).

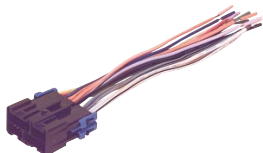

### Into Car Harnesses

This innovative product for car radio installations allows the installer to wire an aftermarket radio into a car without cutting and splicing the factory radio harness.

## Turbokits™ from Metra... a quick and simple way to install an aftermarket radio in the original factory radio's location.

*Turbokits™ are uniquely designed to provide a combination of strength, appearance, and versatility. They are the industry standard for installation kits... often copied, never duplicated. Turbokits™ are designed to fit the dash opening perfectly with no gaps, and DIN radio ISO mounts are included in as many Turbokits™ as possible.*

### 99-4544 GM Multi-Kit 1982-Up w/EQ Option
