TOA 700 Series Mixer/Amplifiers

- For paging and background/foreground music distribution
- Proven TOA quality and reliability
- Three models: A-706 (60W), A-712 (120W), and A-724 (240W)
- Six mic/line inputs, balanced, with mic trim, and 23 VDC phantom power
- Two unbalanced auxiliary inputs with dual-RCA jacks
- Module slot accepts 900 Series plug-in modules
- Transformer-Isolation for telephone paging applications (Input #1)
- 25V, 70.7V and 4 ohm speaker outputs
- Auto-Mute priority function assignable via external switches
- Five year warranty

TOA 700 Series mixer/amplifiers offer versatile features and outstanding value for installed sound applications such as boardrooms, educational facilities, houses of worship, and many others. Features include six mic/line inputs, two auxiliary line inputs and a 900 Series module port. Each mic/line input includes a mic trim control and 23 VDC phantom power. Speaker outputs consist of 70.7V, 25V and 4 ohm. An auxiliary line output can be used for recording or connection to an external booster amplifier. Other features include channel and master volume controls, bass/treble, processor insert jacks and output level meter. Master volume and power on/off can also be controlled remotely. Short-circuit and thermal protection circuitry ensures extended operation.

TOA H Series Interior Design Speakers

- For background/foreground music and paging systems
- Sleek, stylish appearance blends well with modern architecture
- Weatherproof versions available (Model H-2WP and H-3WP)
- Minimum Reflection design is superior to bracket-mounted "box" type speakers
- Loudspeaker components rotate, allow flexible aiming

- Two-way, sealed enclosure
- 1" balanced-dome tweeter, ferrofluid-cooled
- Built-in 70.7/100V matching transformer
- Protection circuit prevents loudspeaker damage from excessive input
- Fast and easy installation using supplied mounting hardware
- Fire-rated ABS enclosure (H-1/H-2)
- Five year warranty

The H Series Minimum Reflection design significantly reduces sound wave reflections and the resulting sound coloration that occurs with conventional bracket-mounted "box" type speakers. Wall- or ceiling-mount installation is fast and easy using standard electrical gang-boxes, and the loudspeaker components can be rotated and aimed without altering the enclosure's external appearance. The H-3 versions feature exceptional wide coverage (140° H x 70° V).

TOA CA Series Mobile Mixer/Amplifiers

- Mobile Mixer/Amplifiers for remote applications
- 12 VDC Powered—battery or external source
- Easy to install; rugged and reliable
- Drives 4 or 8 ohm speaker loads
- Two mic inputs with volume controls
- Handheld mic included: unidirectional, dynamic-type with talk switch and 6 ft. cord
- Auxiliary input for connecting an external CD player, radio, tape deck, or tone generator
- Mounting hardware included: under dashboard or into standard DIN-size console cutout
- Five year warranty

TOA CA Series Mobile Mixer Amplifiers are ideal for remote applications requiring a compact and powerful mixer/amplifier for public address or emergency paging. The three CA Series models—the CA-115 (15W), CA-130 (30W), and CA-160 (60W)—are each powered with a standard 12 VDC battery (not included) and operate into 4 or 8 ohm speaker loads. Ideal for automobiles, boats, buses, construction vehicles, emergency vehicles, law enforcement vehicles, parade floats, and theme park rides.

- #246-532 (CA-115 15W mixer/amp)\$132.00 LIST
- #246-534 (CA-130 30W mixer/amp)\$166.00 LIST
- #246-536 (CA-160 60W mixer/amp)\$218.00 LIST

TOA BS-1030 2-Way 70V Music/Paging Speakers

- Available in black (BS-1030B) and white (BS-1030W)
- Indoor and outdoor applications
- Mounting bracket included
- Paintable enclosure
- Two-way, bass-reflex design
- 70.7/100V and 8 ohm operation
- Screwdriver-adjustable tap settings
- Five year warranty

The TOA BS-1030 speaker has exceptional sound quality and value for a wide variety of applications. Available in black or white, the versatile BS-1030 is designed for both indoor and outdoor use with a durable ABS resin enclosure and steel mesh grill. The two-way, bass-reflex design features a 4.72" cone woofer, 1" dome tweeter, and built-in multi-tap transformer with screwdriver-adjustable power taps. A transformer bypass setting allows direct 8 ohm operation. Installation is fast and easy with the supplied mounting bracket or rear panel keyholes for horizontal or vertical surface-mounting. The BS-1030 speakers are backed with a five year warranty. Sold individually.

Specifications: • Power Handling: 90W (direct 8 ohm), 30W (70.7V, 100V line), continuous program • Frequency response: 80 to 20,000 Hz • Sensitivity: 90 dB, 1W/1m • Dimensions: 11.42" H x 7.72" W x 5.91" D.

- #246-640 (BS-1030B black finish)\$152.00 LIST
- #246-642 (BS-1030W white finish)\$152.00 LIST
