## Amplifiers

### Crown 180MAX XM Business Music System

With 70V XM Tuner/Mixer/Amplifier & Four JBL® Control® Speakers

- Ideal for commercial and industrial use
- Includes 4 JBL Control 1ST 2-way speakers with 70V transformer and mounting brackets
- Programmable XM tuner with XM channel data display
- 4 inputs (each with a volume control) and one 80W amplifier output channel
- Independent bass and treble controls for each input
- Balanced Phoenix-type mic/line inputs; touch-proof screw-terminal speaker outputs
- Priority ducking
- Music-On-Hold outputs
- 3-Year, No-Fault, Fully Transferable Warranty completely protects your investment and guarantees its specifications

The 180MAX is the first integrated tuner mixer-amplifier designed for commercial use. Applications include restaurants, retail stores, coffee shops, bars, and other commercial establishments. The system includes the Crown 180MAX tuner-mixer-amplifier, four JBL® Control® 1ST 2-way loudspeakers with built-in 70V transformers, XM antenna, and a wireless remote control. The built-in power amplifier provides 80 watts into 4 ohms, 25V and 70V. The unit also features a voice-activated paging input.

**#245-497** (180MAX PACK) . . . . . \$1,121.00 LIST **\$699.00** EACH

#### Crown 180MAX 70V XM Tuner/Mixer/Amplifier Only

You can also get the same great mixer/amp that's in the 180MAX PACK, but without the JBL® speakers.

**#245-495** (180MAX) . . . . . \$835.00 LIST **\$499.00** EACH

### Crown 140MPA 70V Mixer-Amplifier

- 4 inputs (each with a volume control), one 40W amplifier output channel
- Ideal for paging, background music, and music-on-hold
- Balanced Phoenix-type mic/line inputs, telephone input, dual RCA stereo music inputs, touch-proof screw-terminal speaker outputs
- Priority ducking
- Independent bass and treble controls for each input

The Crown 140MPA is a high-value mixer-amplifier for commercial audio. It provides 4 ohm and constant-voltage outputs (25V and 70V). Typical uses are paging, background music, and music-on-hold. The unit provides 4 inputs (each with a volume control) and a 40W amplifier output. Other features include priority ducking, phantom power, and capability for remote volume control. Multiple units can be linked. The 3-Year, No-Fault, Fully Transferable Warranty completely protects your investment and guarantees its specifications.

**#245-490** . . . . . \$300.00 LIST **\$219.00** EACH

### Crown CTs Series Power Amplifiers

- High power density: 2RU chassis (CTs 4200) and 3RU chassis (CTs 8200)
- Crown Switching Power Supply for lighter weight
- Selectable "Constant-Voltage" or low-impedance (4/8 ohm) operation per channel-pair
- 100V direct outputs
- Legendary Crown class-I (BCA) and AB+B output topologies offer the best in amplifier reliability
- Perfect independent power solutions for multi-zoned systems
- "FIT" (Fault Isolation Topology) circuitry isolates fault conditions without affecting neighboring channels
- Comprehensive array of indicators provide accurate diagnostics
- Accepts MC accessory modules

Crown's CTs Series amplifiers provide exceptional performance, flexibility, and value for installed sound

applications. CTs Series amplifiers feature independent selection of high and low impedance operation for a specific channel, plus power levels and features that were carefully chosen to match the requirements of fixed installation design. Easy integration with HiQnet™ and CobraNet™ allows CTs amplifiers to deliver a comprehensive lineup of monitoring and control features along with digital audio transport for an award-winning digital audio solution.

#### Power ratings @ 1 kHz, all channels driven

### Crown XTi Series Power Amplifiers

- Integrated proprietary DSP with LCD front panel display
- Accurate, uncolored sound with very low distortion for the best in music and voice reproduction
- Advanced protection circuitry guards against shorted outputs, open circuits, DC, mismatched loads, general overheating, high-frequency overloads and internal faults
- All products fill 2U rack spaces and weigh under 19 pounds—a new standard in lightweight amps (20% less)
- Comprehensive LED status per channel
- Three-Year, No-Fault, Fully Transferable Warranty completely protects your investment and guarantees its specifications

The XTi Series of Crown amplifiers are professional tools designed and built for portable PA applications. All are rugged and lightweight, and offer unmatched value in their class. They feature an LCD screen with DSP speaker presets for crossover frequencies, EQ, limiting, delay, and a subharmonic synthesizer. Other features include a switch-mode universal power supply, useful function indicators, proportional-speed fan assisted cooling, XLR inputs, Speakon® and binding-post outputs, short-circuit protection and more.

### Crown XLS Series Power Amplifiers

A powerful argument for quality and value!

- Electronically balanced XLR inputs
- Touch-proof binding post and Speakon® outputs
- Precision detented level controls, power switch, power LED, and six LEDs, which indicate signal, clip, and fault for each channel
- Efficient forced-air fans prevent excessive thermal buildup
- Housed in a rugged, all-steel 2U chassis measuring 19" W x 3.5" H x 15.2" D

The XLS Series of power amplifiers from Crown represents a new era in affordable, quality power amplification. The line consists of four models in a uniform, rugged 2U chassis, incorporating the best of tried-and-true design principles and innovative features.

XLS Series amplifiers are professional stereo power amplifiers engineered to meet demanding audio requirements—reliably and within budget. Plus, every XLS Series amplifier is backed by Crown's unequalled Three-Year, No-Fault, Fully-Transferable Warranty that covers everything. With over five decades of experience designing and building rock-solid products, Crown is the standard in amp technology.
