

Pro Sound

Microphones & Accessories

Sennheiser designs and builds their Evolution Series microphones to provide great quality sound for a long time—they are covered by a ten year manufacturer's warranty.

Sennheiser e609 Silver Dynamic Microphone

NEW

- Metal construction—rugged and reliable
- Super-cardioid pickup pattern provides isolation from other on-stage signals
- Hum compensating coil reduces electrical interference
- Neodymium ferrous magnet with boron keeps mic stable regardless of climate

Sennheiser's e609 Silver is based on the legendary MD 409 microphone. Able to withstand high SPLs without distorting, the e609 Silver's flat-profile capsule facilitates extremely close miking of guitar cabinets and is also suitable for drum miking, particularly toms. Its sound inlet basket, made of refined steel, is distinguished by a unique silver address side.

#248-310 \$199.00 LIST **\$109.99** EACH

Sennheiser e835 Dynamic Microphone

- Designed to deliver centerstage-quality performance
- Smooth, even response
- Rugged construction for superior reliability
- Cardioid pattern provides consistently controlled pickup
- Also available with on/off switch

NEW

Lead vocal stage mic, designed to perform under pressure. Uniform frequency pickup pattern maintains signal quality when moving on and off axis during performance. Gentle presence boost ensures clarity and projection. Minimal proximity effect provides consistently clear bass and performance when singing closer to or further from capsule. Also available with an on/off switch (e835S).

#248-312 (e835 mic) \$159.00 LIST **\$99.99** EACH

#248-314 (e835S mic w/switch) \$169.00 LIST **\$109.99** EACH

Sennheiser e845 Dynamic Microphone

- Supercardioid pattern for tighter pickup and noise isolation
- For demanding lead and backup vocal applications
- Extended and controlled frequency response
- Engineered and built to last
- Also available with on/off switch

NEW

Extended high frequency response and supercardioid pick-up pattern for higher signal output—really cuts through high on-stage sound levels. Smooth warm tonal response and full dynamic range, with presence lift for vocal clarity and projection. The e845 is a high-output performance microphone, offering power, clarity, and projection. Also available with an on/off switch (e845-S).

#248-316 (e845 mic) \$229.00 LIST **\$139.99** EACH

#248-318 (e845S mic w/switch) \$239.00 LIST **\$149.99** EACH

Sennheiser e902 Cardioid Dynamic Microphone

NEW

- Frequency response optimized for kick drum
- Very fast attack
- Integrated stand mount
- Hum compensating coil
- Shock-mounted capsule
- Robust metal body

The cardioid e902 is a dynamic instrument microphone especially designed for deep bass frequency instruments such as kick drums, bass guitar amps and tuba. Faithfully reproducing the lowest frequencies and handling the highest SPLs, the e902 is your bottom end's best friend. Frequency response of 20 Hz to 18,000 Hz.

#248-322 \$359.00 LIST **\$199.99** EACH

Sennheiser e906 Supercardioid Dynamic Microphone

NEW

- Lively, full sound
- Very fast attack
- Flat shape is ideal for miking guitar amps
- Three position switchable sound character: bright, moderate, dark

The supercardioid pattern e906 instrument microphone was especially designed for guitar amps and is also excellent for percussion and horns. Supercardioid pickup pattern offers improved separation and isolation of sound.

#248-324 \$359.00 LIST **\$179.99** EACH

Sennheiser e935 Cardioid Dynamic Microphone

NEW

- Rugged and reliable metal construction
- Shock-mounted capsule provides low sensitivity to impact and handling noise
- Cardioid pickup pattern for isolation from other on-stage signals
- Neodymium ferrous magnet with boron keeps microphone stable regardless of climate
- Made in Germany

The e935 is a premium cardioid vocal stage microphone specially designed to perform under pressure while cutting through the mix with its high output. Made for the working musician.

#248-328 \$285.00 LIST **\$159.99** EACH

Sennheiser e945 Supercardioid Dynamic Microphone

NEW

- Rugged and reliable metal construction
- Shock-mounted capsule provides low sensitivity to impact and handling noise
- Supercardioid pickup pattern for improved isolation from other on-stage signals
- Neodymium ferrous magnet with boron keeps microphone stable regardless of climate
- Made in Germany

The e945 is a supercardioid lead vocal stage microphone specially designed to perform under pressure while exhibiting a naturally smooth response. The tight supercardioid pattern offers excellent rejection of unwanted sound and stays focused on the performer's voice.

#248-330 \$305.00 LIST **\$199.99** EACH

Sennheiser e914 Cardioid Condenser Microphone

NEW

- Exceptionally lively, clear sound
- Three-position sensitivity switch
- Three-position bass roll-off/cut-off switch
- Very high sound pressure handling capability
- Exchangeable capsule

The e914 is a high-grade condenser microphone for very demanding applications. Its outstanding sound properties qualify it for highly sophisticated applications such as acoustic guitars, cymbals, percussion, overhead, orchestras, and grand pianos. Requires phantom power.

#248-326 \$665.00 LIST **\$379.99** EACH

Sennheiser e901 Half-Cardioid Condenser Microphone

NEW

- Frequency response optimized for bass drum
- No stand needed—just lay it on a towel or pillow
- Standard XLR plug—no adapter cable needed
- Capable of handling extremely high SPLs
- Requires phantom power

Professional pre-polarized half cardioid boundary layer condenser for bass drum, piano, and low frequency instrument applications. Frequency response of 20 Hz to 20,000 Hz. Weighs only 1 lb., 2.4 oz.

#248-320 \$389.00 LIST **\$229.99** EACH
