Pro Sound

Microphones & Accessories

2000 Series UHF Wireless Systems

- Clear sound quality and rock-solid, dependable performance
- Automatic frequency scanning finds an open channel at the touch of a button
- All 10 user-switchable channels are compatible, for easy use with multiple systems
- True Diversity operation selects the better signal from the 2 receiver sections, reducing dropouts
- 9 hours average battery life, 2 x AA alkaline (sold separately)
- Tone Lock™ tone squelch system fights interference
- Rugged metal half-rack receiver, soft-touch controls, RF and AF metering
- Balanced XLR and unbalanced 1/4" outputs for convenient connection
- Includes rack-mount kit and detachable UHF antennas
- Ground-lift switch helps eliminate audible hum caused by ground loops
- ATW-T220 Handheld Mic/Transmitter features PRO 41 capsule for maximum feedback rejection and consistent sound
- Select Audio-Technica Wireless Essentials™ components to complete the ATW-2110 Unipak system

Audio-Technica's innovative 2000 Series wireless delivers professional performance unheard of in its class. With this breakthrough series, Audio-Technica makes easy setup, automatic frequency scanning, and other advanced wireless features affordable as never before. Automatic frequency scanning, standard on all 2000 Series wireless receivers, finds and sets the best available channel at the touch of a button. For those using multiple wireless systems simultaneously, the 2000 Series offers another ease-of-use standout: any of its 10 channels may be used together, eliminating confusing frequency groups and other frequency-coordination problems.
